A PLEASANT DAY.—Thursday morning merry party consisting of Mrs. Myron Cady, her son Walter, and Misses Adella Cady, Abbie, Eva and Hattie Webb, made a visit to Mrs. Geo. Miller. A rollicking day was put in at this delightful home. Bare-back riding, hammock swinging and some fancy riding by Miss H. Webb, ending with a double turn over the picket fence into the ice cream freezer, completed the afternoon sport. It is thought Miss Webb sustained no serious injuries as the gay tones of her voice joined with the onorous notes of the party, vied with the screech-owl, in disturbing the midnight slumbers of the neighboring farmers.

COLORED CAMPMEETING.—A couple of African evangelists have leased Starkweather's grove for a campmeeting, which is expected to open the last of the week There is an impression that this campmeeting is not all wool and a yard wide Mr. Jeffries, who is the pastor here, and also the Presiding Elder of this district, embracing Detroit, Ann Arbor, Pontiac, Flint and Saginaw, is not consulted, and knows nothing about it. It seems strange that arrangements should be made for a campmeeting of colored people here, without the coöperation or the knowledge of Mr. Jeffries, whose congregation includes substantially all of the colored people

GREETING.—It seems natural enough to ee our old friend and townsman, Mr Wm. B. Martin, on our streets again. Mr. Martin was for many years in business in this city, and several years on our school board. Having naturally a benevolent spirit, and desiring to better his fortunes he, some years ago, struck tent and never pitched it again till he reached Standing Rock agency, where he ministered for several years to the physical wants of the Sioux Indians. He is now located in business, at Marian Park, Minn., half way be tween the rival cities of Minneapolis and St. Paul, and at the precise point where

preëminence will, in the near future, collide. There is a project now to locate the new state Capitol at this point and Mr. M. crumbs of profit from such project. The northern climate or financial prosperity or something else has certainly left a favorable impress upon him. While always a but on the contrary he seems to have resister, Mrs. Ancil Williams.

IMPROVEMENTS.—Loughridge and Wilcox are putting down a broad flag stone walk across the Adams street front of Chas King's lot, and across Wm. Clark's lot adjoining, a distance of about 14 rods. That laid across the fronts of Wm. B. Clark and Wm. Wortley, on Huron street, is being extended across the adjoining lot to Pearl street. Austin F. Burbank, on south Huron street, has lately had put down as handsome a flag walk as there is in town; and Philo Ferrier is also laying stone walk at his place on River street.

-Another considerable piece of flagging is that about the new savings bank building. The steps necessitated by the elevation on Congress street are an undesirable feature, but otherwise it is an exceptionally fine piece of walk.

Jas. Seeley is building an addition upon the rear of his brick house at the corner of Washington and Catharine streets, putting on a new roof, and a porch in front.

Died.

Lewis Cluky, who came from Kansas a few months ago, died last Monday, at the residence of his sister, Mrs. N. M. Thompson. The deceased served during the war as sergeant of Co. C, 8th New York Heavy Artillery, and Carpenter Post, G. A. R., by request, conducted the burial service in accordance with their ritual, at 10 o'clock

Will Gilmore, formerly of this city, died in Shoshone, Idaho, Aug. 5, 1888, of peritonitis.

Church Services.

The union services next Sunday evening

sermon by Mr. Venning, of the Methodist church. Rev. W. H. Skentlebury will occupy the Congregational pulpit next Sunday morn-

Rev. H. P. Welton will preach at the Presbyterian church the two remaining

Sundays in August. Principal Sill will conduct services at 7 o'clock.

The fourth quarterly meeting of the M. E. church at Stony Creek, will be held on

Panorama of the Crucifixion.

Jerusalam on the Day of the Crucifixion. s the name of a panorama, or cyclorama, on exhibition in Chicago, which it was our rare privilege to see a few weeks ago, and which every visitor to the city should visit. It is in the building formerly occupied by the Siege of Paris, opposite the Battle of Gettysburg. The work was executed in Europe, and has received the approval of numerous eminent clergymen here, not only for its artistic merit, but for its tender and delicate treatment. The view embraces the Holy City, and considerable reaches of country, extending eastward to the Mountains of Moab, beyond the Dead Sea. Upon the rocky plateau of Calvary stand in strong relief and startling distinctness, the three crosses. with the grief-stricken group about their bases. Near the top of the central cross upon which the Saviour is stretched, is nailed a white slate bearing Pilate's inscription in Latin, Greek and Hebrew, 'Jesus of Nazareth, King of the Jews." Upon his head is the crown of thorns The eyes are closed, and the features are at rest. Mary, the mother of Christ, leans upon John, the beloved disciple. The Magdalen stretches up her hands toward the sacred figure. Martha, Mary and Lazarus, of Bethany, Nicodemus, and Joseph of Arimathea, are among the mourners about the cross. The light of the sun is eclipsed, and an oppressive gloom rests upon the entire scene.

"The picture is beautiful," says a Chicago paper, "but far more beautiful in its reverence, its tenderness, and the sweetness its lesson teaches."

Rooming and Boarding. All who wish to take Normal students to coom or board, during the coming term, are requested to furnish information on

the following points: 1. Name, street and number.

Rooms or board or both. Number of rooms—furnished or not.

Are rooms on 1st or 2d floor? Ladies or gentlemen, and how many The rule forbidding ladies and gentlemen to occupy rooms in the same house

will be observed. Direct through the P. J. M. B. SILL, Ypsilanti.

Last Base Ball Excursion. The Michigan Central will run a special train to Detroit on Thursday, August 23d, leaving Ypsilanti at 7:30 a. m., returning, leave Detroit at 7:30 p.m. Fare for round trip 75 cents. Last chance to witness a game of base ball between the two great

the two cities in their rapid strides for the Bazarette.

rival teams, Detroit and Chicago.

Present Arms!

Ypsilanti Light Guard and Ypsilanti presented arms and mutually embraced is the lucky man to catch some of the each other, last Monday evening. It was the occasion of their anniversary reception tendered to the citizens, commemorative of the sixteenth aniversary of the organization. Our people responded to the ingood looking man, the long years of his vitations in large numbers, and Light absence seem not to have touched him, Guard Hall was well filled with representative people. The time was spent in social newed his youth like the eagle, and taken | conversation, and listening to music by the a firmer grip on life. Mrs. Martin, we are vocal quartet (Messrs. St. James, Hodge, told, accompanies him on his brief visit Youngs, and Chas. Smith), and Mr. Davis here, the guest of her mother and her of Ann Arbor, harpist, for an hour or more, when the company gave an exhibition drill, and for a half hour entertained the company with their admirably executed maneuvers. About 11 o'clock, tables were placed, and ice cream and cake served to the visitors, after which Prof. George was introduced as toastmaster, and Esq. Joslyn, Col. Bowen and Dr. Hueston successively summoned to respond to toasts. Mr. Joslyn spoke of "the organization," and said it was really a reorganization from a company ante-dating the war, in which he was a charter member. In number of organized companies and of men, he said Michigan ranks fifth among the states. Col. Bowen spoke of "the position of the company in the state troops," declaring that the Ypsilanti Light Guard had always held a high rank among the companies of the state, and had never, in all their encampments and public occasions, given cause of reproach to their city or themselves; and he strongly urged the claims of the company upon the regard and encouragement of the community. Dr. Hueston spoke of "the company as an organization for the benefit of its members as citizens," considering the great value of the discipline and drill to the individual as a member of community, and urging the importance of military exercise among the pupils and students of all

of our schools. At 12 o'clock, the hall was cleared and those who felt so disposed indulged in a dance. A very neat and appropriate decoration was the letters Y L G, formed of white helmets arranged upon the wall at the rear of the stage, and below those, formed of blue fatigue caps, "H 4"-indicating the local and official designation will be held in the Presbyterian church. of the organization. The reception was in all respects successful—the most so of any that has been held, and highly gratifying to all concerned.

> A New Brand. The Evangelist Mission Society of North

America-Grover Cleveland Chapel. In another place in this issue we have spoken of a colored campineeting to be St. Luke's Sunday. Evening service at held in Starkweather's grove, and suggested a doubt as to its character. The imwas written has since been valuably sup-Saturday and Sunday, Aug. 18 and 19. plemented, and a flood of light has been tail. Services on Saturday at 2 p. m.; on Sunday | shed upon the subject. The Rev. Samuel at 9:30 and 10:30 a.m. All are cordially B. Thompson of Ann Arbor, Presiding Elder of the World, is the source of that light. There was held in Toledo, last May, a conference of the Evangelist Mission Society of North America, a new religious sect composed of colored people who find the existing denominations too narrow for them. The Rev. William B. Campbell of Toledo is elected Bishop of the new denomination, and Mr. Thompson of Ann Arbor Presiding Elder with jurisdiction conterminous with that of the Bishop, and he is therefore Presiding Elder of the World. The Rev. J. W. Jenkins of Ann Arbor was appointed pastor of the Ypsi lanti and Ann Arbor circuit, and they are proceeding under the episcopal authority to raise funds for the erection of a church in Ann Arbor. The edifice is formally christened Grover Cleveland Chapel and Mr. Thompson is in daily expectation of a handsome contribution which he has solicited from the President. He says Don M. Dickinson will of course come down liberally, and that he is going to call in person upon Mr. Burt, democrat candidate for Governor, for a tap from his ple The campmeeting begins at Starkweath

er's grove to-morrow, to continue ten days to do missionary work for the democrat ticket during the services, and that he de sires to keep his religious mission and his political mission distinct, though he feels that he has a mission in both fields. The Presiding Elder had the misfortune to get into jail, some time ago, but the circum stance seems not to abate his missionary zeal in behalf of fallen humanity.

Another annual conference of the Evan gelist Mission Society is to be held in Ann Arbor on the 15th of November, after the labors of the campaign shall have closed, and the first general conference at the same place on the 19th of the same month.

The Devil's Toboggan Slide-Zip! and You're in Hell!

These are display lines in a dodger circulated here, announcing preaching by H. O. Wills, "Detroit's Evangelist," at the Belleville campmeeting. Mr. Wills proposed to hold forth on this classic line yes terday, and tells us in his dodger that the lecture will be "illustrated with banners," sample of which, we suppose, is the coarse wood-cut that disfigures the printed announcement. We hope the campmeeting authorities do not approve the profanation of presenting this sort of variety stage antics in the name of religion. P. S.—People who attended yesterday report that Wills occupied the platform. forenoon, afternoon and evening, and that his harangues were marked by coarseness of thought and expression deeply offensive Don't forget to buy a campaign badge at to people of devout feeling and refined sensibilities.

A Visit to Ward's Science Establishment.

Twenty-five years ago, to the lover of curious and beautiful things, Ward's museum was one of the attractions of Rochester. To-day its place is supplied by the collections to be found in Sibley Hall—the Library and Museum building of Rochester University. Ward's Science Establishment has become, what a placard at the door announces, a working institution where those who have no business are not expected to interfere with the time of the search of information, to patrons, to all interested in science, the doors are open, and the utmost attention shown. Prof. Henry A. Ward is frequently away on collecting tours, securing materi- ticket in his state.

al for the ever-diminishing, ever-increasing store; of specimens for which his establishment is so justly famous. At present he is exploring the waters around the peninsula of Lower California, a locality rich in forms of life that are very desiraabsence his place is filled by Mr. Frank N. Ward, and to this gentlemen I was inhive of unique industries which constitute the science establishment.

Very few of the rooms convey, to the easual observer, much idea of the value or variety of their contents. In Cosmos Hall. however, the cases of drawers in which the great stores of material are contained, are surmounted by glass cases in which are displayed, in endless variety, sponges sea-fans, corals and shells.

In the hall above are stuffed animalsoctopi with their hideous arms, turtles large and small, crabs with arms like the spokes of a wagon wheel, snakes, birds and quadrupeds-indications only of the stores of skins ready for mounting. Among the birds a group of eagles was noticeable; a magnificent white swan; a horn-bill with the bill almost as large as the bird; a sec retary bird with his pen over his ear; rosy-colored flamingo, and herons of beautiful plumage. Among the mammals were representative forms of tropical and temperate climes from the duck-billed platypus of Australia to the buffalo of the west ern plains. The latter individual, though said to be an unusually fine specimen of the race now so nearly extinct, did not meet my expectations. In fact the mighty monarch of the plains is neither impressive nor awe-inspiring. In popular pictures the head is lowered as if for attack, but such seems to be the normal position. The bushy shoulders are as much exaggerated as the bristling mane of the traditional lion. A faded and ragged tuft of hair beneath the jaw gives a slovenly look to the countenance, the legs are not graceful, the hoofs are small, and to the thin hind quarters is appended an insignificant rope of a.

Passing to another room we found ourselves in the midst of an osteological collection that would delight the heart of an anatomist. There, in outline clean and beautiful, stand the bony frameworks on which nature builds up the manifold forms of vertebrate life. On shelves around the room, in paper bags, were quantities of disarticulated skeletons, dry bones awaiting only business "order" to take their places, joint to joint, in orderly arrangement and definite form.

Here we saw the skull of a whale with its huge jaws, part of the immense framework of a monster of the deep which is in preparation for the Zoological Museum at work of the thoracic region. The ribs were as thick as a man's arm, the flippers them the finishing touches. The long exed in sections for want of room. To this establishment, it will be remem

pered, Barnum entrusted the mounting of Tumbo, skeleton and skin; and Mr. Ward Murray of this city. nquired with much interest after the celebrated remains which were so recently exhibited to the people of Ypsilanti. In still another room, on tables and

helves and suspended from the ceiling, vere skins of all kinds of animals,-rough, incanny looking things which would seem to defy the skill of the taxidermist to oring into form and symmetry. Large poxes filled the floor and shelves of another room in which were stored thousands of bird skins from every clime under the un. It was a treat to look through the trays and feast the eyes on richness of coloring and gracefulness of form. Passing to the mineral department

was introduced to Mr. Preston under whose charge this part of the establishnent is placed. There as elsewhere the tores are kept in drawers, with only a few collections in sight. Among the latter, ingeniously mounted, and plainly labeled, are Ward's Statigraphical Collection, representing the prominent geological formaations; the New York series of rocks; the Academy series, and the fine and extensive collection known as the "College Collection." These are exhibited in glass cases but I had only to ask for any mineral, and the spring of a drawer displayed scores of specimens from which the most fastidious could choose and be content. From the mineral room we passed to the collection of fossils, but the eve was weary with see ing and attention flagged. A hasty glance at some familiar form, a rapid survey of Smith organ, at W. R. Davis' Shoe House, shelves filled with the silent memorials of Tyler Block, Congress street, Ypsilanti. ancient seas; and I bade adieu to the courteous gentlemen who preside over this unique and interesting establishment.

Geneva, N. Y., August 13, 1888.

Personal.

Prof. Bellows departed last Saturday, to conduct institutes at Sault Ste. Marie and Champion, which will occupy him two weeks. He was accompanied by Mrs. Bellows and two daughters, who will visit their daughter Jessie-Mrs. Peter McKinnev-at the Soo.

Remember that the eloquent and versatile Anna Shaw will speak in the opera

house, Sept. 5. We have a few copies of the complete tariff list, giving the tariff rates in 1883 and also the rates subsequently to the change of that year, also the amount of imports for each article and their foreign

value. Price per copy 15 cents. The Clinton Independent is booming one "John A. King" for member of the state board of education.

Any one desiring good help in the house, may learn something to their interest by calling at The Ypsilantian office.

Our readers should notice the new ad-

vertisement of the First National Bank, on A lithograph picture of the new steamship City of New York, on which Blaine returned to America, is exhibited in the express office. People may get an impression of her dimensions when they know that her depth is 60 feet, and her length

two blocks. The city tax rolls are turned over to the Marshal for collection of delinquent taxes with the 5 per cent penalty. The levy was \$29,500, of which \$27,600 is collected,

equal to the distance from the west end of

leaving only \$1,900 delinquent. The W. C. T. U. will meet at the M. E. chapel next Tuesday at 3 p. m. All are

The Sons of Temperance will give a lawn social, Tuesday evening, Aug. 21, on Alva Worden's lawn, Congress street east. For refreshments ice cream will be served. Admittance 15 cents including refresh-

The excursion of the Methodist and Baptist Sunday schools, to Detroit and Lake Erie, yesterday, attracted from 600 to 700 people, and passed off to the satisfaction of all. No rain of any consequence was encountered, in which respect the excursion was more fortunate than that of Above a hundred teachers are in attend-

ance upon the teachers' institute, and the exercises are found very interesting and profitable. Rain on Tuesday evening deprived many of our citizens of the privilege of hearing the lecture of Judge Humphrey of Allegan county, which they have reason to regret. Prof. George gave a valuable talk last night, and Miss King occupies the platform this evening.

The wide-awake republicans of Ypsilanti township erect a Harrison pole, two miles south of the city, this afternoon.

We call attention to the notice of the grand republican rally at Ann Arbor Aug. 22, at 7:30 p.m. It is expected to charter a train should enough signify a desire to attend, and make the round trip about 25 cents. We hope there will be a large turnout from Ypsilanti.

Mr. G. M. Goodell, of Denton, has the agency for the Lives of Harrison and Morton, and will canvass the city and vicinity for subscriptions.

For Rent.

Good brick house and barn, with premises, corner Adams and Michigan streets -all new and in good order. Enquire first G. DAVIS. For Sale.

2 brick blocks on Congress street, 3 houses and lots Huron Hamilton house and lot on East Cross Adams Forest avenue. Also houses to rent. Inquire of E. B. Morehouse.

The finest assortment of writing papers and calling cards in the city at the new jewelry and stationery store.

Campaign badges, handkerchiefs, flags and lanterns at the Bazarette.

Got to make room for new goods, look out big bargains at the new jewelry and stationery store next 15 days.

Anyone wishing to engage the professional services of Miss Betsey Gates, will 1/2 off on all goods for the next 15 days call on Mrs. P. W. Carpenter, south Washington street.

A Brooklyn man named Wardrobe is a singulary appropriate buisiness. He has set up a snop in Fulton street for the renovation of clothing.

Land in New York City is so dear that it does not pay capitalists to build houses for rental. Many houses that sell for \$40,000 will not bring \$2,500 a

The world moves, even in England Word comes from the little island that the London & Manchester Railway has decided, "in deference to the prejudices of its American customers," to institute the system of checking baggage.

Three thousand little sand-crabs from the New Jersey coast have been sent to Europe. They will be placed in museums of natural history connected with schools, where they will be studied as specimens of diminutive crustacea.

Culture is doing much to boom the business. It has sent 16,000 mulberry trees and cuttings to silk cultivators, and will this year put out 50,000 more;

has been tied together, and will shortly be launched from a place called Jog-gins, in Nova Scotia. The last raft of this sort which was set afloat went to this sort which was set afloat went to any important change in the Bible with-pieces in a storm, and three ships were out immediate detection. If there had terrible damaged by colliding with the

A French engineer, M. J. P. Albert, has recently inventsed an improved key which simplifies and renders lasting the tuning of stringed instruments. The violoncellists of the grand opera at Paris have had them adapted to their instruments, and Pleyel, the pianomaker, has purchased the right to use them in his pianos.

A farmer at Adairsville, Ga., while near a spring the other day, observed a rattlesnake lying in full length, with head erect, and only a few feet away is that if the Bible be a letter from God, was a full-grown rabbit, evidently under the charm of the snake. The latter was quickly killed, when the rabbit fell over and in a few moments was

The white hat has become extinct in London, and the reign of the "stovepipe" has returned in greater force than ever. There is nothing so picturesque as the white hat for summer head gear, and it is to be hoped that our countrymen will not succumb to advanced thinkers to whom God has is "English, you know."

D. M. Hudson, a florist of Sumner,

strip of land seventy feet wide and a

The danger of somnambulism is well known. A writter in the Century tells of a piece of good fortune coming from the habit. A young lady, troubled and anxious about a prize for which she was to compete, involving the writing along of an essay, arose from her bed in sleep dead. and wrote a paper upon a subject upon when awake, and this essay secured for out?,' her the prize.

The black bass fishing among the Thousand Islands is a failure this summer. Even the fictitious catches that are used as hotel advertisements have an empty sound. Seth Green is said to attribute the total failure of the muskallonge and black bass fishing this season to the great quantity of alewives in the St. Lawrence and in Lake Ontario. Bast at Alexandria Bay, however, is as dear as ever, and as poor.

The Treasury Department recently received half of a \$20 note from a Brooklyn woman with an affidavit to the effect that the other half had been chewed up by a child. The next day came an affidavit from a New York man, containing half of a \$20 note, and stating that the other half had been lost. The two halves bore the same torn edges matched exactly. They

A peculiar incident of history is the fact that two Jews of Bagdad have bought the entire site of the ancient of Babel, the great capital of Nebuchadnezzar. The purchasers are two brothers Effendi, one of whom was elected member of the Turkish Parliament which convened in 1878. It is remarkable that two Jews have become the heirs of the gardens of Semiramis and the palaces of Nebuchadnezzar, or what is left of them.

One of the most thoroughly equipped and highly accomplished centenarians on record is reported from San Diego, Col. Jeffrey Gordon is his name, he a negro, and he was born in Boone County, Virginia, on June 16, 1773. He is still vigorous, and his memory so good that he remembers to have seen Washington when he was President, and also Jefferson, and to have helped build the cotton-bale fortifications at New Orleans for general Jackson.

A farmer living about five miles west of Pickway, Woodson County, Kan., is the owner of a genuine wonder-a hair less calf. It is a graded shorthorn, now over six weeks old, healthy and active, and like any other animal of its age except that the entire body is entirely destitute of hair. The flesh is soft of a pink or light red color, and be-comes blistered when exposed to the sun even for a minute. It is therefore kept in a dark stable to protect it from the heat and fles. It is said that the owner has several times refused offers of \$2,000 for it from Barnum and oth-

TALMAGE'S SERMON.

The Celebrated Brooklyn Divine Answers the Question, "Is Orthodoxy Stale and Unreasonable?"

The Bible is Not Only Divinely Inspired, But is Divinely

The Rev. T. De Witt Talmage, D. D., f Brooklyn, was present for the twelfth verbatim report of it:
A Great London fog has come down

apon some of the ministers and some of largest liberty for the soul. the churches in the shape of what is called "advanced thought" in biblical of advocacy for what I believe to be the interpretation. All of them, and without any exception, deny the full inspiration of the Bible. Genesis is an allegory, and there are many myths in the Bible, and behind the age, and the victims of any least the splendors of orthodoxy.

Many have supposed that its deciples are people of flat skulls and no reading, and there are many myths in the Bible, and behind the age, and the victims of splendors of orthodoxy. The California State Board of Silk and they philosophize and guess and reason and evolute until they land in a

The Bible is not only divinely inspired, hundred years a man could have made been an element of weakness or of deception or of disintegration, the book would long ago have fallen to pieces. If there had been one loose brick or cracked casement in this castellated truth, surely the bombardment of eight centuries would have discovered and broken through that imperfection. The fact that the Bible stands intact, notwithstanding all the furious assaults on all

sides upon it, is proof to me that it is a miracle, and every miracle is of God.
"But," says some one, "while we admit the Bible is of God, it has not been understood until our time." My answer our Father, to man, his child, is it not strange that that letter should have been written in such a way that it should allow seventy generations to pass away and be buried before the let-The largest bunch of grapes supposed to have been raised in California write a letter for the guidance and infor eighteen hundred years were deceived in regard to vast reaches of its literary mongrehsm, I would throw the meaning, is a demand upon my credulity so great that if I found myself at all disposed to yield to it I should to-morrow morning apply at some insane asylum as unfit to go alone.

Hudson, a florist of Sumner, W. T., recently went on an exploring expedition near the foot of the glaciers of Mount Tacoma. As he stooped to pick up a stone his revolver fell from of Mount Tacoma. As he stooped to pick up a stone his revolver fell from his pocket, and when it struck the ground was discharged. The bullet passed through his neck, killing him instantly. His companions buried him forty miles from any settlement.

Sable Island, on the coast of Nova Scotia, is gradually disappearing, and in a few years more will be totally submerged. During one gale in 1881 a upon the work of the Almighty and to interlard it with their wisdom and to that time, its death wound. He was suggest prophetic and apostolic errata, the most fascinating man I ever heard

"But," says some, "do you really which she had not intended to write when awake, and this essay secured for out? Yes, either as history or as guidance. Gibbon and Josephus and Prescott record in their histories a great many things they did not approve of. When George Bancroft puts upon his brilliant historical page the account of an Indian massacre, does he approve of things in the Bible which neither God nor inspired men sanctioned. Either as history or as guidance the entire Bible was inspired of God.

"But," says some one, "don't you think that the copyists might have made mistakes in transferring the divine words from one manuscript to another?" Yes, no doubt there was such mistakes; but heel, they no more affect the meaning of the the w Scriptures than the misspelling of a word or the ungrammatical structure of a sentence in a last will and testament affect the validity or the meeting of that will. All the mistakes made by the copyists in the Scriptures do not amount to any more importance than number, and on being laid together the the difference between your spelling in a document the word forty "forty" or "fourty." This book is the last will and testament of God to our lost world, and it bequeaths every thing in the right way, although human hands may have damaged the grammar or made

unjustifiable interpolation. our day on being advanced thinkers in Biblical interpretation will all of them end in atheism, if they live long enough and I declare here to-day they are doing more in the different denomination of Christians, and throughout the world, for damaging Christianity and hindering the cause of the world's betterment than five thousand Robert Ingersolls could do. That man who stands inside a castle is far more dangerous, if he be an nemy, than five thousand enemies outside the castle. Robert G. Ingersoll asshove back the bolts and swing open the

Now, I am in favor of the greatest freedom of religious thought and discussion. I would have as much liberty for heterodoxy as for orthodoxy. If I should change my theories of religion I should preach them out and out, but not in the building, where I am accustomed to preach, for that was erected by peo-

mies of music where we can ventilate New York would be better places to live our sentiments.

I remember that in all our cities, in Tombs and Sing Sing and all the smalltime of political agitation, there are the Republican headquarters and the Democratic headquarters. Suppose I should go into one of these headquarters pretending to be in sympathy with their work, at the same time electioneering and he takes hold with both hands and process that how to his line and then the same time electioneering and he takes hold with both hands and process that how to his line and then the same time electioneering and he takes hold with both hands and process that how to his line and then the same time of political agitation, there are the pox hospitals emptied on them than heaven would be if there were no hell. we will promulgate the theories of that chautauqua. His sermon was from the collowing text, in the book of Jeremiah i, 16: "Ask for the old paths, where is the good way, and walk therein, and ye would no more have the attempt to rear sink."

I sink. shall find rest for your souls," and answered the question: "Is Orthodoxy Stale and Unreasonable?" Following is in the lifting of the splendid monument to Washington. Largest liberty for the body, largest liberty for the mind,

Now, I want to show you, as a matter and behind the age, and the victims of gullibility. I shall show you that the word orthodoxy stands for the greatest splendors outside of heaven. Behold the missionaries of the Gospel the world round are men who believe in an entire and will this year put out 50,000 more; and worms and eggs are given to owners of mulberry trees.

Another cigar-shaped raft of logs has been tied together, and will short.

The Bible is not only divinery hispired, but it is divinely protected in its present shape. You could as easily, without detection, take from the writings of Shakespere "Hamlet" and institute in Shakespere "Hamlet" and institute in and the world's betterment, and they all place thereof Alexander Smith's drama | believe in an entire Bible. Just as soon as at any time during the last fifteen as a missionary begins to doubt whether there ever was a Garden of Eden, or whether there is any such thing as future punishment, he comes right home from Beyrout or Madras and goes into the insurance business! All the missionary societies this day are officered by orthodox men and are supported by

orthodox churches. Orthodoxy, beginning with the Sandwich Islands, has captured vast regions of barbarism for civilization, while heterodoxy has to capture the first square inch. Blatant for many years in Great Britian and the United States, and strutting about with a peacockian bragga-docio, it has yet to capture the first continent, the first state, the first township, the first ward, the first space of ground as big as you can cover with the small end of a sharp pin. Ninety-nine out of every hundred of the Protestant churches of America were built by peole who believed in an entire Bible. oulpit now may preach some other gos-bel, but it is a heterodox gun on an orthodox carriage. The foundations of all the churches that are of very great use in the world to-day were laid by men who believed the Bible from lid to lid, somebody else's, and it was a sort of

Bible. You have noticed, I suppose, hat as soon as a man begins to give up the Bible he is apt to preach in some hall, and he has an audience while he ves, and when he dies the church dies. If I thought that my church in Brooklyn was built on a quarter of a Bible, or Tyn was built on a quarter of a Bible, or a half Bible, or three-quarters of a Bible, or ninety-nine one hundredths of a Bible, I would expect it to die where I would expect it to die wh or ninety-nine one hundredths of a Bible, I would expect it to die when I die; but when I know it is built on the entire when the individual paradisaical?

Young men, old men, middle aged men, take sides in this contest between

tians? Martin Luther. Orthodox from

you come from? Answer: "It is all ever met. She was an impersonation of uncertain: in my ancestral line way the most orthodox orthodoxy. Her last back there was an ourang-outang and word was peace. As a sublime peroratadpole and a a pollywog, and it took These men who pride themselves in millions of years to get me evoluted. O man, believing in a Bible in spots, where are you going to when you quit this world? Answer: "Going into a An extract from a will: great to be, so on into the great someyou going to when you leave this now receiving my Redeemer's world: Answer: "I am going to my Test to my I set to world: Answer: "I am going to my mony, I set to my seal that God is true; my father's house: I am going into the and believing the record of John that

for the opposite party. I would soon find that the centrifugal force was greater than the centripetal! Now, if a the draught begins to pour its sweetness nan enters a denomination of Christians, down his throat, shall we snatch away taking a solemn oath, as we all do, that the bowl and jerk the man up to the gates of heaven, and push him in if he denomination, and then the man shall does not want to go and sit down and students held yearly in proclaim some other theory, he has broyou and me so completely free that we need not go to heaven unless we prefer

> Nearly all the heterodox people I know believe all are coming out at the same destiny; without regard to faith or character we are all coming out at the shining gate. There they are, all in glory together. Thomas Paine and George Whitefield, Sezebel and Mary Lyon, Nero and Charles Wesley, Charles Guiteau and James A. Garfield, John Wilkes Booth and Abraham Lincoln— all in glory together! All the innocent men, women and children who are massacred, side by side with their murder-ers. If we are all coming out at the same destiny, without regard to character, then it is true. I turn away from such a debauched heaven. Against that caldron of piety and blasphemy, philan-thropy and assassination, self sacrifice and beastliness, I place the two destines of the Bible forever and forever and for-

ever apart.

Behold also the splendors of the Chris-

Those who deny the Bible, or deny any part of it, never die well. They either go out in darkness or they go out in silence portentous. You may gather up all the biographies that have come forth since the art of printing was invented, and I challenge you to show me a triumphant death of a man who rejected the Scriptures, or rejected any part of them. Here I make a great wide avenue. On the one I put the deathbeds of those who believed in an entire Bible. On the other side of that avenue I put the deathbeds of those who rejected part of the Bible, or rejected all of the Bible. Now, take my arm and let us pass through this dividing avenue. Look off upon the right side. Here are the deathbeds on the right side of this avenue. "Victory through our Lord Jesus Christ!" "Free grace!" "Glory, glory!" "I am sweeping through the gates washed in the blood of the Lamb!" "The chariots are coming!" "I mount, I fly!" "Wings, wings!" "They are coming for me!" "Peace, be still!" Alfred Cookeman's deathbed, Richard Cecil's deathbed, Commodore Foote's deathbed, the deathbeds of those who rejected part deathbed, Commodore Foote's deathbed, your father's deathbed, your sister's deathbed, your child's deathbed. Ten thousand radiant, songful deathbeds of those who believed an entire Bible.

Now take my arm and let us go through that avenue and look off upon the other side. No smile of hope. No shout of triumph. No face supernatu-rally illumined. Those who reject any part of the Bible never die well. No No church of very great influence to-day but was built by those who believed in an entire Bible. Neither will a church last long built on a part of the any exception they go out of the world because they are pushed out; while on the other hand the list of those who believed in an ertire Bible and gone out of the world in triumph is a list so long it seems interminable. Oh, is not that a splendid influence, this orthodoxy, which

esis, which is as true as Matthew; then gine which we recently inspected at ald. He was mandments; then after a while you will wake up in a fountainless, rockless, tree-

Nineteenth century critics! All this comes of living away back in the eternities instead of 1888. I have two wonders in regard to these men. The wonders in regard to these men. The first one is how the Lord got along with- small you can not see it with the naked of dictating the truth to the prophets out them before they were born. The second wonder is how the Lord will get stands on "Hell Fire Corner," thunder-the truth to these modern apostles and the truth to these modern apostles are the truth to these modern apostles and the truth to these modern apostles are the truth to the truth truth to the truth truth to the truth along without them after they are ing away the magnificent truths of this prophets. God has not learned anything glorious orthodoxy just as though Theodore Parker had never lived. All that much when He gave the first dictation as Boston, or Brooklyn, or New York, or the world ever got that is worth having came through the wide aqueduct of I will stick to the old paths. Naturally orthodoxy from the throne of God.

Behold the splendors of character built up by orthodoxy. Who had the built up by orthodoxy. Who had the greatest human intellect the world ever knew? Paul. In physical stature insignificant; in mind, head and shoulders Scriptures with the meat-ax of their own above all the giants of the age. Orthodox from scalp to heel. Bonnets of puffed and gathered tulle on skeleton frames the fashion knots, or about twenty-five statute for summer wear. They are very light miles per hour.

INDUSTRIAL NOTES.

"Every year the citizens of the Inited States wear out about 130,000,-000 steel pens," said a prominent manufacturer. "Twenty years ago most of the steel pens used in this country were imported. Now comparatively few are imported, and there are several factories in this country in which they are made in large quantities. At present the importation of foreign pens is mainly confined to the high-priced articles. It was first doubted that steel pens could be made in this country, but it was soon learned that the requisite skilled labor could be obtained for high wages, and the success of the pioneers led one manufacturer after another into the business, until now the field is pretty well occupied. Most of the work on these little instruments is done with the aid of very fine machinery worked by women and girls. The steel used is imported, because it is believed that the quality is more uniform than the American steel. This uniformity of quality is necessary, because of the very delicate tempering required in the manufacture of the pens. That mysterious quality of steel which gives different colors is a quality that requires expert manipulation on the part of the workman who does the tempering. He must know the nature of the material with which he works, and that knowledge he must exercise a marriage. celerity and skill that seize upon the

quality. "First the steel is rolled into large sheets. These are cut into strips about three inches wide. These strips are annealed, that is, they are heated to a red heat and permitted to cool grad-ually, so that the brittleness is all removed and the steel is soft enough to be easily worked. Then the strips are again rolled to the required thickness. It is the quick eye for color and the quick hand that fastens it that constitute the skill to determine the temper of the steel. When the steel is heated for tempering it is bright. The first color that appears is straw color. This ticity of the metal varies with the color, and is arrested at any point by instantly plunging in cold water. The processes of slitting, polishing, pointing, and finishing the pens are operations requiring dexterity, but by long practice the workmen and workwomen become very expert. There have been few changes of late years, and the process of manufacture is much the same as it was twenty years ago, and the prices are rather uniform, ranging from 25 cents to \$4 per gross, according to the quality of finish. The boxes sold generally contain a gross. The best now in the market are of American make. Writers who buy foreign pens at fancy prices find them f ar inferior in durability to the American article. Persons who write continuously will wear out a good steel pen in two days."

A Successful Petroleum Engine. For some time past Messrs. Priestman Bros., of Hull, have been endeavoring to overcome the difficulties which

foundation of the engine, and air is pumped into this tank until a pressure of about five pounds to the square inch is obtained. The oil is then mixed with air until it is formed into a vapor, after which it passes into a closed iron vessel or vaporizer, where it is heated, and from which it is admitted into the engine cylinder and ignited by means of an electric spark. The spark is obtained by a small primary battery capable of doing about thirty hours' work without attention, and which can be renewed at a small cost. In starting the engine the vaporizer is heated for a few minutes, after which the necessary heat is obtained from the exhaust products of combustion while on their way to the chimney. The cylinder is water-jacketed, the water being kept in circulation by a small nump. After it has once been started the engine works automatically, preparing its own source of power, heating its charge, cooling its cylinder, and supplying its own spark for ignition. The great point here is that only ordi nary petroleum is used, which, moreover, is entirely consumed, leaving no residue whatever, the combustion being complete. The cost of working this engine, taking the oil at the present price, is stated to be a little more than a halfpenny per horse power per hour. The engine is simple in construction and is well adapted for use where steam is inadmissable and coalgas not obtainable. It has been thoroughly tried and proved in practical

work before being brought out.-Lon-

don Standard.

Miss Geneva Armstrong, a young lady who owns a farm in Western New York, has invented a machine for feeding cattle on trains. It is patented, and she hopes to have it adopted for use during the transportation of live stock.

The giant of all guns is in process of construction. Krupp's works are making a 130-ton gun for the Italian ironclad Sardegna. It will be $52\frac{1}{2}$ feet long, with a bore of 15.7 inches. It will fire a steel shell of 1,630 pounds, with an initian velocity of 2,411 feet per second, or one of 2,314 pounds at ,099 feet per second.

The official report on Russia for 1885 shows that the population of the empire is 109,000,000. There were 46,264 deaths by violence, 52,000 fires, 2,377 distilleries, 132,000 wine and beer shops, 245 sugar refineries, 8 universities, 38,531 Orthodox churches, 1.287 Catholic, 708 Protestant, 349 synagogues and 3,957 mosques.

The Cunard steamship Etruria has broken the record for fast transatlantic trips, by covering the distance between Queenstown and Sandy Hook in six days, one hour, and fifty-five minutes. This beats the Umbria's best time by two hours and forty-seven minutes. The average speed of the trip was twenty-two statute miles per hour, but on one day she covered 50

"The Quick or the Dead."

The lovely young authoress of "The Quick or the Dead" and many other notable brilliant stories, now Mrs. Amelie Rives-Chanler, was called upon at her beautiful home, Castle Hill, a New York Herald correspondent a day or two ago. She was found walking across the lawn, wearing a fleecy gown of white material, a wide-brimmed hat, and swinging a parasol in her hand. Accompanying her were several of her pets, including a huge ombination of mastiff and bull, called with a double-coiled tail and excessivey puggy face; and a "little teeney bit" and jumping around their young mistress in the highest state of animal glee. The cool mountain breezes, laden with the fragrance of flowers, rustled the leaves of the trees; the birds carolled delightful melody in their branches, and the dainty prominent figure in the scene was gayly chatting on a milk bill! Holy sufferin Galusha, on a milk bill! Holy sufferin Galusha, and laughing merrily with somebody not visibly at the instant, but who immediately turned out to be Mr. Chan-

They are spending the honeymoon here, and let it be said to the bride's credit that she has sensibly and intelligently selected her own charming home, where, surrounded by every condition of happiness, she is thorough-ly and quietly enjoying that honey-moon after her quiet and unostentatious

With an apology for the intrusion the correspondent broke in on the proper instant to fasten the steel at a morning ramble of this young couple. heat which insures the requisite Beginning with a few more apologies the visitor called the attention of the authoress to a two-column contribution in an alleged New York newspaper, charging her with plagiarism in the production of "The Quick or the Dead." The article was a windy attempt to prove that Miss Amelie Rives work was a glagiarism of the novel entitled "Mrs. Lorimer," written some

years ago by Lucas Malet.

The lady was asked what she had to say to this new charge.

She glanced quickly over the introduction to the long argument in the so-called journal, and laughingly said: "You know I have decided not to changes rapidly to a blue. The elas- reply to any charges whatever. This one appears to me even more absurd than usual."

"Then, as might be supposed, there is no shadow of a foundation for the charge?" said the correspondent.

"No. No thought of Lucas Malet's most clever sketch in 'Black and White' ever crossed my mind in writng 'The Quick or the Dead.' Accord ing to this charge, I have plagiarized from the lives of at least a hundred men and women who have written to me concerning this story.

"Is it possible?" said the correspondent in some surprise.

"Yes, quite true. All love stories must be as old as love itself. It is only the different garb in which they are dressed that makes them interesting to

'May 1 ask, Mrs. Chanler, if not impertinent, your object in 'The Quick or the Dead?' "

"My object," said the authoress, in quite a serious tone and manner, "in 'The Quick or the Dead' does not seem to have been quite recognized, even by my kindest reviewers. It is to show that a woman loves her husband's soul, his ego rather than his body. If this were not so Barbara would have given as a motive power for engines. In herself unquestionably to Deering, who this they have now fully succeeded, as was physically the exact reproduction of her dead husband."—New York Her-

> Hong Yen Chang is the name of the first Chinese lawyer in this country. He was admitted to the bar at Poughkeepsie, though he lives in Brooklyn, and is in the office of a New York firm Mr. Chang came to this country in '72, and studied law at Yale and at the Columbia college law school. He passed his examination for admission to the bar last year, but he had to be naturalized before he was admitted. only has the patronage of his own countrymen in New York he will have a lucrative practice.

Four Ninety-five for Milk.

The other day a Pittsburger who bets on horses and has been losing with wonderful regularity ever since the season began—I think he's had money on almost every race at New Orleans. Memphis, Lexington, Louisville, and Latonia this year—gathered up a \$5 bill from the wreck, says the Dispatch's Topical Talker, and bestowed it upon the wife of his bosom, who has housekeeping, as can be readily imag-

Ined, against great odds. The night after he had thus disposed "Turk," the terror of tramps; a noble-looking and intelligent collie; a pug pensive sporting blood came home with big expectations of the supper that his wife would have ready for him on his of a black-and-tan which could be put in one's pocket. The dogs were racing therefore, when he found the fare upon the table of the usual plain and any-

thing but plentiful order. "Didn't I give you \$5 this morning?" he asked his wife.

"Yes, John, but I paid \$4.95 on the

what did you do that for?" he said, with two hands on the table and every hair in his head curved up like an interrogation point. "What did you pay out \$4.95 to a milkman for? your wits, woman? Why didn't you pay it the butcher? We might 'er got something from him-but paying it to a milkman. Great Scott, you can't eat milk!! Four dollars and ninety-five cents to a milkman! Well my luck must change some day. Four dollars

I believe he's still repeating that wonderful combination to himself, and using language which would give a calliope a sore throat.

A new industry in California is said to be the killing of bees that swarm in private houses. At present it is monopolized by two men.

Girls as Journalists. Brightest and best of all are the young girls who have adopted journalism as a profession. They are clever, alert, full of life and wit. They go about skimming the group of experi about, skimming the cream of experience and giving their papers good stuff | tem taught is modern, instruction They will make good wives individual, term short, and the great for good editors. There is plenty room and a real welcome in the newspaper offices for the sensible, earnest, ambitious girl who knows what to write and how to write it. You have doubtless heard the story of Mrs. Gadabout who in paying positions. paid a first visit to Mrs. Newcomer, and who asked her what her husband did

"Oh," said Mrs. Newcomer, "he is a reporter.

"What's that?" "Why, he goes all about town finding out things about people and then prints it in the newspapers. He earns twenty dollars a week.

Goodness gracious! Do vou mean to tell me that people get paid for that, and I never knew it." screamed Mrs. Gadabout, as she took up her bonnet and rushed off to a newspaper office as fast as she could go. - Caroline Cole.

From One Point of View.

I was reminded of the old but nevertheless true adage that "Every cloud has a silver lining" as I overheard the following conversation between two women who were standing at the cor-ner of S xth and South streets yesterday. One of them was evidently a servant, and she said to the other:

"I see there is crape on the door opposite. "Yes the lady who lives there lost both her children with diphtheria last

night, and I am going over to see what assistance I can render. She has no girl, I believe." 'No, she's got no gurl. I came near being caught there myself, but I heard

about the children in toime. "Heard they had diphtheria?" Oh, they were well enough then.

She's a lucky woman, she is, ma'am.' "Lucky, why so?"
"Yes indeed, ma'am, for now she can advertise that she's got no children

and she can get a good gurl in a min-

ute."—Philadelphia News.

Alone on a Battlefield.

It was an ugly give and take. We could not see the enemy but the whizz and ting of bullets proved that they were not far away.

As the excitement increased one of my men in his haste fired off his ramrod and held up his musket that I might see what he had done. Without thinking I started to the rear. where a short distance away lay a

No sooner had I left touching distance of my company than an irresistible sense of loneliness and dread se zed me, Every step made the sensation more acute. Soon I was practically panic stricken. Somehow, however, I got the ramrod of the useless musket

and went back to the line on the run. With the return came assurance and courage. I never felt more alone or helpless than in those few moments of isolation. The air seemed full of hissing, shrieking demons. I was sure that each next moment would bring death. - Youth's Companion.

A man may not have a stitch to his back. but still have one in his side. - Yonkers States tion is just after he returns from one.

The Seventy-Sixth Ohio Infantry was organized at Newark, Ohio, Feb. 1862. Its colonel was Charles R. Woods, who had been a captain in the immediately sent forward, and its first experience of fighting was in the attack on Fort Donelson. It was also on Corinth, in June was sent to Memphis, and in July to Helena, Ark. It took part in several raids into the enemy's country, during which it had considerable skirmishing, and in December shared in the unfortunate Yazoo expedition. It was in the expedition against Arkansas Post, and in April moved with Grant's army southward, to execute the flank movement against Vicksburg. At Jackson it made a gallant charge on the enemy's works. Before Vicksburg it did heroic work in the trenches, After the surrender it went with Sherman's army to capture Jackson. In September the regiment went to Memphis, in November was sent to join General Hooker, arriving in time to take part in both the fights on Lookout Mountain and Mission Ridge. It went into winter quarters at Point Rock, Ala., Jan. 1, and there nearly all of the regiment re-enlisted. The soldiers were then allowed veteran furlough, and in March rejoined the army. It immediately took up the line of march southward with Sheridan, sharing in all the battles of the Atlanta Campaign. After the surrender, the regiment performed provost guard until Jan. 9, when it embarked on gunboats for

A New Discovery.

A New Discovery.

The lately discovered South American Moxie Nerve Food we noticed lately is a puzzle to the doctors. It is decided to be neither medicine nor stimulant, though it rapidly recovers nervousness, nervous or mental exhaustion, effects of overstimulation or overwork, and even cases of paralysis and insanity. Perfectly harmless and tasteless, it stops the thirst for liquors, and is fast substituting that drink; does not leave reaction, but makes everybody hungry and strong. All the apothecaries have it. Drink flavored. A New Discovery.

few in any part of the world even approach them in this particular.

All these waters have about the same general medicinal effect. They are alterative and tonic when moderately uesd; in larger quantities, are powerful elminators, acting upon the bowels, kidneys and skin, without, however, producing the irritating effect which this class of agents usually induces when prepared by means of pharmacy, less perfect than Nature. They are especially adapted to the treatment of diseases of the skin, dyspepsia, constipation, chronic inflammation of the various muccus surfaces, scrofula, rheumatism, all specific diseases; and, in fine, may be very beneficially used in all chronic affections where a tonic and alterative effect is designed. From the weakening effects of warm weather, b tonic and blood purifier. Hood's Sarsaparilla gives a good appetite, strengthens the whole system, purifies the blood, regulates the digestion. re effect is designed.
To the invalid the many cures effected by a proper use of these waters for the last lirty years give the strongest assurance of "It affords me much pleasure to recommend Hood's Sarsaparilla. My health two years ago was very poor. My friends thought I was going ief. To those who are not yet confirmed alids the old maxim that "an onnee of evention is better than a pound of cure" with consumption. I commenced using Hood's Sarsaparilla, took five bottles of it, and to day I can do as hard a day's work as I ever could. It conveys its own suggestion.

To those residents of cities harassed with care and oppressed with the heat, dust and impure air, who seek complete quietness and repose, French Lick and West Baden offer all that natural scenery, pure air and homelike comforts can contribute.

Prohibition Platform, 1888.

The prohibition party in national convention assembled, acknowledging Almighty God as the source of all government, does hereby declare:

4. For the immediate adolition of the internal revenue system, whereby our national government is deriving support from our greatest national vice.

THE Volksblatt, German democrat paper of Rochester, N. Y., deserts the Cleveland-free-trade party and comes out for Harrison and Morton and protection, declaring that "the economical policy of the President is pernicious to the country and its industries, and, above all, ruinous to the workingman of the North."

IT takes Senator Evarts quietly but effectively to put the extinguisher on falacious theories and false claims. In the recent debate in the Senate on the fisheries treaty, he took up the headland theory of Canada and showed the absurdity of their claims in a way that told. The New York Mail and Express sets it off as follows:

Mail and Express sets it off as follows:

If the United States should apply it, we should draw our first straight line from Grand Manan, off the southeast corner of Maine, to Provincetown on Cape Cod. Our second bay would be included in a line drawn from Cape Cod to Cape Hatteras, and our third would extend from Cape Hatteras, and our third would extend from Cape Hatteras to Florida Keys. As for the Gulf of Mexico, we should begin to measure the three-mile limit from a line drawn from the southern end of Florida to Port Isabel in Texas. This would give us a pretty comfortable jurisdiction over the high seas and carry us very near to the Spanish dominions in the West Indies. There is no better illustration of the absurdity of the Canadian claim than this, and, as Mr. Evarts is undoubtedly the best international lawyer in the Senate, it may be taken for granted that he completely demolished the absurd theory which Mr. Bayard has adopted in negotiating his treaty with the Canadians.

Last week we gave an illustration as to the effect which the absence of competition in this country has upon the foreign nite principle; a party without any distinct advance in right ways of thinking, truly price of commodities. We showed how unsilvered plate glass had fallen since 1875 to the country; a party which fell from fa- | born southern ladies before the war, would 66% per cent. This glass is manufactured vor as a conspiracy against human rights, have ostracised them from society, but in this country, and foreign glass is brought into competition with it, but sil- as a conspiracy for plunder and spoils." vered plate glass meets no such competi- It's mighty hard to find a reason for con- is to gain some practical knowledge of tion, because it is not made in this country, and so we pay for it to day as much as in it is very unreasonable to ask it. This in- building up the common schools of their 1875 less 13 per cent. Mr. McKinley, in ability to find a reason does not throw any section. In this connection ized, several years ago, for the manufacture of coarse fluted glass, and cathedral crats, as it would be to require the reason made by John P. Hale when senator Butglass. Last November the factory was de- why the democrats of our city and com- ler of South Carolina, who, by the way, stroyed by fire. Cathedral glass was their munity should be so anxious for Mr. Curspecialty. Within ten days from the time tis' advice, as to go to the expense of es- pion of human rights, called his attention that splendid property was reduced to tablishing a Harper's annex in their midst. to a drove of mules passing down the aveashes, the foreign price of cathedral glass Democrats who accept Mr. Curtis now, advanced 28 per cent. to the American plead guilty to his indictment of their marking, that they were some his (Hale's) consumer. This shows what controls the party which we have quoted, all which is constituents. "Yes," said Hale, "going price of goods in this country, and the ex- very unreasonable, in fact, is without down south to teach school." "To go south tortionate demands of foreign monopolies reason or rather contrary to reason. Just to teach school," was a common thing for when once they are relieved of American so, the present democrat policy of free impecunious students in those days, and competition. Nor does it matter whether trade, which was the spirit and point of many a poor boy paid his way through home competition is destroyed by fire or every democrat speech in Congress on the college from the generous wages received by free trade. One is just as bad as the Mills bill. It is certainly without reason, from southern planters. While the teachother, and he who thinks differently, has for no man who has carefully watched the ers were well used and well paid, yet they read our history to no profit.

THE STATE TICKET.

We publish in full to-day the names of the nominees of the republican party for

As the names of most of them are familiar to our readers, and their efficient two years is well known, we need not stop drop it in among the unsolved and unlordly master as well. One of the benefit to introduce them. It is sufficient to say that they have been faithful servants of the state and merit the hearty support of the voters of Michigan. Two new names appear on the ticket. Stephen V. R. Trowbridge of Ionia, is a young man of fine presence and with a successful professional practice. He is a clear and consecutive thinker, and a forcible and convincing speaker, and if chosen to the position to which he aspires will honor the state and conscienciously care for its interests.

Perry F. Powers is also a young man in the sense which custom allows us to speak. Really, he is in the prime of life, young enough to reflect the spirit of his times and old enough to bring to the State Board of Education, maturity of judgment and wise counsel. It is well we think to enlist into the service of our schools some thing of the vigor and enthusiasm which a man of thirty is sure to bring. Many institutions in the state have died, or at least lingered out a sickly existence be cause of old age in the management, but with Prof. Estabrook, venerable in years as in good works, for counsel, Ballou, for keen business insight and methodical habactive pertinacity, and Powers, for rare versatility and close scrutiny of facts and events, and all for broad views and generous impulses toward one of the most vital desirable and promising a combination of qualities as could be desired.

and will receive the endorsement of the people in November.

IN A BAD WAY. The making of tin plate had just begun in thi country, under the tariff, and was profitable, when suddenly boron was discovered in large quantities A tax of five cents a pound was immediately put on borax, to encourage this production, and in consequence of this the tin plate manufacturers could not compete with the foreign article. They resort ed to arsenic as a cheap substitute for borax, and after poisoning a few people gave up the job, and the foreign manufacturers of tin plate are thus protected by our tariff against competition in our own markets. Protection is one of the rules that works both ways, if not very carefully handled.—Sentinel.

From the above, it will be seen that th Sentinel has the free trade jim jams worse than ever. This will be only too evident to our readers when we call attention to the fact—unless Wagner and Crooks, recognized authorities on chemical technology, are ignoramuses—that borax is not used, at all, in the manufacture of tin plate, and, also, that arsenic is in no way whatever, similar to borax in its properties Furthermore, nobody with a grain of sense would think of using it as a substitute. But this is not all. From 1862 to 1871 crude borax was under a duty of 5 cents per pound and according to the Treasury department, sold in foreign markets at an average of 14.7 cents per pound for that period. For the three following years, it was duty free, and sold in the same market at an average of 18.8 cents per pound, so we see, the tariff taken off was simply as was the case with coffee, added to the foreign price to enrich the foreigner while it cost the consumer the same as before. So much for crude borax. Refined borax as under constant duty of 10 cents per pound from 1862 to 1883 when it was reduced, instead of advanced, to 5 cents. With these facts accessible to the Sentinel, he still has the gall to say he "doesn't write for leatherheads." Well, if he doesn't write for leatherheads, he certainly writes with one, and after such a leathery deliverance as we have quoted, he better sit down in the shadow of his ears, and rest.

The truth when told about tin plate, is simply this, that the ridiculous revenue tariff on tin plate of one cent per pound, prevents home manufacture, and gives a foreign monopoly the control over our markets and about 200 per cent. profit, on what they sell us. That is the sum and substance of the whole business, and is an outrage on home industries and the consumer alike. In the light of these facts, any man who knowingly attributes the non-production of tin plate to the duty on borax or to arsenic, shows that he has large vacant rooms in the upper story.

A DEMAND FOR REASON WHERE NO REASON IS.

The democrats are depicted as American rebels trying to ruin American labor, and the laborers upon whom they depend for votes, in order to aggrandise England and promote English interests, without a solitary reason offered why they should wish to destroy themselves for the benefit of Englishmen.—Harper's Weekly. The fact is, no good reason can be offer-

ed why the democrats wish to destroy the

nevertheless, and the workingmen are coming to realize it more and more every day. Possibly, Mr. Curtis thinks some reason should be offered why he destroyed years before, he had described as "a party very hungry, and as you may well believe. very thirsty, a party without a single defi doubt on the existence of the fact, howevmand a reason for the policy of the demo-

solvable mysteries of a sin-cursed world.

BLAINE'S GOT BACK.

After an absence from his country, of fourteen months, Mr. Blaine and family arrived in New York harbor, June 10th. at 11 a. m. To many who had come from far to welcome the great commoner home, it was a great disappointment that his arrival was delayed beyond the time for their departure from the city, but enough remained for an ovation such as no other man ever received, crowned or uncrowned. It may seem strange to some that Mr. Blaine has such a hold on the American people as his reception indicated, but when we remember his valiant service in the dark days of the republic, and that he is a true American in all his instincts, and is the most distinguished champion in our ountry, of a distinctively American policy that he is ever ready to lift his voice in defense of our fishermen on the coasts of Labrador, or the people on the Pacific slope, who are struggling to resist the hordes of corrupl and sunken humanity which would pour in upon them, that he stands in defense of the Monroe docits of work, Babcock, for legal acumen and trine, believing that America is for Americans both native and naturalized that he believes in a restored merchant marine as the foundation of our naval power, that he advocates closer relations with the South and important factors in the educational American Republics as our natural allies, system of the state, we have presented as in fine, that he stands square and fair on every issue in which his country is interest ed, and brings to their advocacy transcend-The ticket in every part is a strong one antability and the most enlightened statesmanship, with all these things in mind, there need be no longer any mystery about what our eyes see, and our ears hear. Welcome home, James G. Blaine, thrice welcome to the country which reaches out eager hands and warm hearts to greet thee.

> Copies of the Fort Dodge Times, a large and prosperous paper in its twentieth year published in one of the flourishing cities of Iowa, have been received at this office. The issue of July 5, 1888, has a column editorial, headed, Halt! About Face! It states that eighteen years ago the writer took charge of that paper, and has ever since consistently and faithfully support ed the democrat party, and demonstrated his faith in it by deeds as well as words But the administration of President Cleve land and the declarations of the St. Louis convention are more than he can endure and he hoists the names of Harrison and Morton and declares his support of the epublican party. In his indictment of the administration policy he says of President Cleveland, "He risks the welfare of the country and his party on the cast of single die, a theory practiced by but a single nation on earth, a nation diametrically opposite to ours in position, being com pelled to draw upon the four quarters of the earth for raw material, while we have abundance at hand." Concluding, he says We leave a victorious party, entrenched in power, and controlling the patronage of the nation and of Webster county, and join a party that has not a dollar of public patronage to bestow.
>
> The democratic party bears the prestige of success, so enticing to cowards and camp-followers; but we choose to suffer the pangs of temporary defeat with the loyal legions of unquestionable patriotism, rather than share the tainted success of "the lost cause," indifferently concealed in the tolds of a red bandana.

Some weeks ago, the Sentinel, in highly wrought language of oriental symbolism, referred to The Ypsilantian as Issachar rouching between two burdens, Ignorance on one side, and Conceit on the other. So far as Issachar is concerned, the point was very evident. Issachar was a powerful tribe (one of the six which were to stand on Mount Gerizim, the Mount of Blessing), which in due time crossed over into the promised land and occupied the valley of Esdraelon, the most fertile country in all Caanan. The tribe was noted for enterprise and industrious habits, and is mentioned in Judges, with honor for its brave and wise patriotism. In Chronicles, we read the following language: "And of the children of Issachar, which were men that had understanding of the times, to know what Israel ought to do," etc. Certainly, The Ypsilantian will find no fault with the Sentinel so far. What has troubled us, though, is to decide which one of our flanking contemporaries, he intends should stand for Ignorance and which one for Conceit. Our neighbor's recent articles on the tariff, suggest that with propriety, the Sentinel might stand for both. We see no necessity for involving our neighbor of the Commercial in interests of labor. That is just why they the interpretation of his figurative lanare so unreasonable, but the facts exist,

THE daughters of two distinguished southern Congressmen, Senator Colquitt of Georgia, and Representative Brecken himself to benefit a party which, a few ridge of Kentucky, are applicants, it is reported, for positions in the public schools of Washington. This certainly is a new departure for the south, and indicates an national policy which it dares to present encouraging. Such an impulse in high and now attempts to sneak back to power things have changed since then. It is stated that the object of those young ladies, duct like his, just after such a speech, and school methods with a view to apply it in tive, and it is to be hoped that the school there comes to mind a quick retort once had no great love for this fearless chamnue from the Capitol, at the same time re development of our industries, and seen were not as a rule, admitted to social stand-

the condition of all classes of our people, | ing with the pampered sons and daughters elevated and improved under the opera- of the landed gentry. Such a thing as tion of the protective policy for the past teaching school did well enough for 25 years, can possibly assign any reason "northern mudsills," but was not to be why that policy should now be destroyed. thought of for the old time aristocracy. Don't ask it, Mr. Curtis, accept the fact | Slavery made all work degrading, and so discharge of official duties for the past that the policy is fiercely attacked and was not only a curse to the slave but his cent results of the war is seen in the intro duction of new ideas and new standards of estimating worth and character, and these ladies who seek the schools now in Washington are to be congratulated for the sanction they give to honorable employment, and the noble motive which un derlies their action.

> Somehow, we don't seem to hear so much about the "robber tariff," as we did a few weeks ago. What is the matter? Has a change come over the spirit of dem a great light? In short is the democrat party beginning to hedge on the tariff is-It looks like it. Their papers have everywhere become suddenly busy with the work of explaining that they are not in favor of free trade at all; nothing in fact, was ever farther from their thought; indeed, they are pretty good protection robbers themselves. We hear that the President himself is about to issue a supplementary message, to correct the popular the other seems to have occasioned, and probably Mills and Morrison and Watterson will favor us with revised editions of their views with explanatory notes. Harper's Weekly has already issued a cartoon which is significant of the idea of hedging. Cleveland is represented standing behind a big hedge, and armed with a pair of hedge shears. The hedge is labeled 'Protection," and the man with the shears is snipping off such vigorous growths as the hedge produces. The picture is entitled, "The difference between trimming | First-Class Sugar Cured Hams a Specialty a hedge, and cutting it down." : The woolgrowers of Washtenaw county have realized the effect of that "trimming," already, and no amount or species of hedging which Cleveland's supporters can now do will break its force.

A HOLY FESTIVAL.

LESSON VIII, THIRD QUARTER, IN-TERNATIONAL SERIES, AUG. 19.

Text of the Lesson, Lev. xxiii, 33-44. Commit Verses 41-43-Golden Text, Ps. exviii, 15-Commentary by Rev. D. M.

[Condensed from Lesson Helper Quarterly, by permission of H. S. Hoffman, Philadelphia, publisher.]

This chapter may well be called "The Chapter of the Feasts of the Lord" or "The Chapter of Holy Convocations," the former expression beginning and ending the chapter, and found also in verses 4, 37, while the latter is found no less than eleven times in this

Our lesson today gives an account of but one of the eight different convocations recorded in this chapter; or seven if we do not count the Sabbath, which was an institution

33. "And the Lord spake." How little we are apt to think of this most weighty statement. It ought to cause us to give heed with all our powers as we remember that while other things pass away "the word of our God shall stand forever.

34. "Speak unto the children of Israel." Moses was simply the Lord's mouthpiece to he people and had only to say what the Lord

"The fifteenth day of the seventh month." It is for God to appoint the day, and for us to be obedient. It was on the first day of this month that they blew with the trumpets, and on the tenth day was the great annual atonement of last week's lesson. The fiftieth year or year of jubilee was ushered in by the blowing of trumpets on the atonement (xxv, 9, 10).

"The feast of tabernacies seven days unto the Lord." In Ex. xxiii, 16; xxxiv, 22, it is called the feast of ingathering because they had gathered in all their fruits out of the field (also v. 39 of our lesson). Verses 40 to 43 tell us why it is called the feast of the tabernacles; they all took boughs and branches of trees and made booths in which they dwelt seven days, rejoicing before the Lord, as they remembered their forty days in the wilderness, when they had no crops to gather in, but they dwelt in tents and God fed them.

35. "An noty convocation," because it was a gathering unto, and in the name of the Holy One of Israel. He was their holiness, even as He is ours, and apart from Him there

is no holiness 'No servile work." Nine times in this chapter are we told of no work, or no manner of work, or no servile work (vs. 3, 7, 8, 21, 25, 28, 31, 35, 36) in connection with these holy days. All true service ought to be joyful service, a glad thank offering to Him who speaks from off the mercy seat, who Himself is our mercy seat. All slavish work, or work done because we ought to do it, or must do it, should have no place in the service of such a Redeemer, "whose service is perfect

V. 36. "An offering made by fire unto the Lord." Twice in this verse, and five times elsewhere in the chapter do we find this expression (vs. 8, 13, 18, 25, 27). It was because of this offering by fire that there was to be no servile work but only joy in the Lord, with deep humility of soul.

37. "Everything upon His day." Sacrifices and the number of them, feasts and the order of them all appointed by God and everything upon His day; the priests and the people had only to read aright and be obedient, and the command was: "To write the words of the

command was:
law very plainly."
38. "Beside the Sabbaths, . . . gifts,
38. "Beside the Lord." Israel ings, which ye give unto the Lord." Israel was required to give unto the Lord for his special worship and for their own great good, every seventh day in the whole year, besides these three annual seasons of from one to seven or more days, when everything ordinary had to be laid aside; they had also to give one-tenth of all their increase besides their special gifts and vows and free will

44. Having now glanced at all the verses in the lesson (verses 39-43 were touched upon in connection with verse 34) let us look at the feasts of the Lord in their reference to Christ and to us, and may the spirit that was in Moses declare them unto us. The same spirit in Paul declares that "holy days (R. V. feast days), new moons and Sabbath days are a shadow of things to come." (Col. ii, 16, 17.) That Christ our Passover has been sacrificed for us; and that we are to keep the feast with the unleavened bread of sincerity and truth, purging out all the old leaven of malice and wickedness. (I Cor. v, 7, 8.) He also tells us that Christ risen from the dead is the first fruits of them that

sleep. (I Cor. xv, 20, 23.) Here then is the substance of the first three of the seven feasts; Christ the true passover, Christ the true unleavened bread, and Christ risen from the dead the true first fruits. Now the fourth of the seven feasts, in the third month, called the feast of weeks because it was just seven weeks or fifty days after the last feast, called also the feast of harvest or first fruits of wheat harvest, clearly points us to that which occurred fifty days after the resurrection of Christ, viz., the conversion of thousands of Jews when the spirit was poured out at Pentecost. But all the first fruits are not in yet, and the reaping at Pentecost was only a beginning. In James i, 18, writing to the twelve tribes of the dispersion, he speaks of the believers as "a kind of first fruits;" and in Rev. 14, 4, the 144,000 of the sealed ones of the seventh chapter are called "a first fruits with Code and to the Laboratory and the seventh chapter are called "a first fruits with Code and to the Laboratory and the Laboratory and the Laboratory are considered to the Laboratory and the Labora fruits unto God and to the Lamb;" then, in Rev. xiv, 15, we have the great harvest or reaping time, after the fall of Babylon, which is opened up more fully in Rev. xvii, xviii; then in Rev. xix, xx, the marriage of the Lamb, the judgment of the pations, the binding of Satan, after which comes the thousand years when Israel, in their own land, shall, from the least to the greatest, know the Lord, for they shall as a nation have been converted by the appearing of the Son of Man in power and glory, accompa-nied by His saints (Zech. xii, xiii); and then shall the true feast of tabernacles be kept, when "the Lord shall be King over all the earth," and "those that are left of the nations shall go up from year to year to Jerusalem to worship the King, the Lord of Hosts, and to keep the feast of tabernacles. Zech. xiv, 9, 16, 17. These feasts of the Lord are Jewish feasts and carry us forward to the redemption of Israel as a nation, and the restoration of all things of

with Him in glory"? Then see to it that you are, by faith in Christ, one of the righteous, in whose body is seen, day by day, salvation and recipiter. and rejoicing. John Jones, living near Fairburn, Ga., has an old family house cat that is nursing and caring for a young rat, bestowing as much attention upon this adopted child as she does her own kittens, with which the rat gets

AN UNPARALLELED BUSINESS.

It is said that the Moxie Nerve Food Compan ave sold nearly 8,000,000 bottles of their food in about three years. The popularity it has attaine as never been paralleled. Counterfeits sprang u p. To prove it was not a fraud, scores of nervou wrecks and old cases of helpless paralysis recov anusual, thought to be impossible thing, caused nervous. The chemists say it is harmless as gruel The Company have put a 75c. bottle of the syrup on the market, that with ice water makes seventy five good drinks of rich beverage, nerve food that will give the weak and tired double powers of endurance at hard work, without stimulation or reac tion, at a cost of three cents per day; and it doe ot lose its effect from long use more than other foods. It will cure the liquor and tobacco habit and break a recent intoxication in an hour. It also emoves the effect of a debauch in a few hours. It rapidly taking the place of stimulants and nervines. Its cure of drunkenness is enough to ommend it. The druggists say its sale is simply marvellous. The women swarm after it because unlike a stimulant, it gives remarkable powers of

Daniel Webster on the Farm Daniel Webster took great pains to be

on friendly terms with his rural neighbors at Franklin, N. H., and at Marshfield, Mass. One of his Marshfield neighbors thus related his acquaintance with the great expounder: "I was out in my dooryard one morning before breakfast last summer, and saw a gentleman in my cowyard. He apoligized for his intrusion, as he termed it, by saying, 'I got out of my carriage, sir, to look at your barn cellar. I am taken with its plan and structure, and thought I might gain an idea that I might put in practice at home. My name is Webster of Marshfield. I am taking a look round among my neighbors to see if I can learn some thing about farming.' 'Oh, Mr. Webster! My name is Collamore. I am happy to see you, Mr. Webster; won't you walk in sir?' 'Not today, sir, if you will excuse me. But, Mr. Collamore, we are neighbors, not very far apart, and I should be happy to see you at my house, I am a farmer, in my way, which is not so good as that of my more experienced neighbors, but we may find something with which to while away a little time on my place. Come down Mr. Collamore, and see me, and bring Mrs, Collamore and your neighborsplease to invite them-tackle up, and all of you come down some pleasant morn-

ing and spend the day." "
So Mr. Collamore, his wife and neighbors went down. Mr. Webster led them all over his farm till they got an appetite for dinner. It was in that year when flour was so high. Mr. Webster attended to the wants of his guests at table, and then called upon the servant for a piece of bread, He took the bread, remarking in an old fashioned style; "I tell my woman that flour is so high we must not buy only a pillow bier of flour at a time, nowadays." The idea of this allusion to old fashioned times was to his guests very ludicrous, and was one of the incidents they alluded to when they spoke with each other of their visit to Marshfield,— Ben: Perley Poore in Boston Budget.

How Chocolate is Made, "Chocolate," said a confectioner, "is made from beans that grow in pods on the cacao tree. These trees are numer ous in the West Indies, and it is from there we get our supply. The beans are brought hither in the pod, and put through a regular manufacturing pro cess to produce the chocolate cakes that we use. The first operation is the breaking of the husks and separating them from the kernels by a blast of air. Then the beans are ground with sugar by re- Dathfan Drothor volving granite grindstones. The stones are heated, and the oil contained in the bean makes the mass adhere and be-come a thick paste. This pulp is now partly dried and the air bubbles are squeezed out in a press, and it is transferred to the cooling tables. Here it is beaten and worked by hand to produce an even texture and a fine grain. Then it is placed in molds, a blast of cold air is

turned on, and in a few moments the beautiful glossy tablets are finished. "The British government has recently directed that chocolate be served two or three times a week in their army and navy. In confectionery the Parisians exceed us in the number of preparations of chocolate. We use it in its natural flavor only, while they mix essences and other flavors with it, until there is no end to the combinations that they produce. In England much of the chocolate is adulterated. Some recent tests detected flour, starch, potato, lard, chalk, bran and old sea biscuit in specimens offered for sale."—New York Mail and Express.

Attorney. Attorney. Attorney. Attorney. Attorney. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Monday, the 23d day of July, in the year one thousand eight hundred and eighty-eight. Present, William D. Harriman, Judge of Probate. In the matter of the estate of Alford Smith, deceased, William J. Canfield, the administrator of said estate, comes into court and represents that he is now prepared to render his final account as such administrator. Thereupon it is ordered, that Saturday, the 18th day of August next, atten o'clock in the forenoon, be assigned for examining and allowing such account, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the city of Ann Arbor, in said county, and show cause, if any there be, why the said account should not be allowed: And it is further ordered, that said Administrator give notice to the persons interested in said estate, of the pendency of said account, and the hearing thereof, by causing a copy of this order to be published in The Vpsilantian, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing. FINZER'S

THURSDAY, AUGUST 16, 1888. A UNITED STATES man-of-war was sold in the Brooklyn navy yard a few days ago for \$10.

Ir has been decided that no theater in Madrid will be allowed to open its doors next winter unless it shall be lighted by electricity.

A FRENCH gardener has produced a new and beautiful water lily. The flowers are six inches in diameter, and of a Marechal Neil rose color.

A NOVELTY is an insole made of horse-hair on a felt foundation. The felt absorbs the moisture, while the horse-hair keeps the foot warm by constantly irritating it.

THREE of the six fellowships at Cornell University open to competition among the students have been won by women this year. The fellowships carry with them an income of \$400

According to Munhall's Dictionary of Stastites, the average age of all the In the United states the average is only twenty-four years, ten months and twenty-four days.

An extraordinary experiment was made at Bone, in Algeria, on May 29, after the execution of a native who had murdered his brother and the latter's wife and father-in-law. As the head fell from the guillotine a doctor took it up and spoke a few words. Various movements of the man's eyes and mouth seemed to show that the words had been heard and under-

MORTAR made in the following manner will stand if used in almost all sortsof weather: One bushel of unslaked lime, three bushels of sharp sand; mix one pound of alum with one pint of linseed oil, and thoroughly mix this with the mortar when making it, and use hot. The alum will counteract the action of the frost on the ruddy health-was driven to his hotel, where

BERLIN, it seems, has gradually become the head-quarters of the carved wood industry, supplanting Switzerand. Six hundred artists in woodcarving, the same number of turners, and seven hundred carpenters are engaged in manufacturing such articles as cigar-cases, newspaper and pictureframes, napkin-rings, &c. The value of the annual export of these articles is given as 5,000,000 marks, and this is exclusive of the costly carved-wood furniture, the manufacture and exports of which are assuming large proportions.

A METHOD of preserving the natural color of flowers, recommended by R. Hegler in the Deutsche Botanische Monatshefte, consists in dusting salicylic acid on the plants as they lie in the press, and removing it again (ten innings).—Boston, 4; Indianapolis, 1. with a brush when the flowers are dry. Red colors in particular are well preserved by this agent. Another method of applying the same preservative is to juse a solution of one part of salicylic acid in fourteen of alcohol by means of blotting paper or cotton-wood soaked in it and placed above and below the flowers.

In some experiments with ozone as a curative agent an English lady, so far advanced in consumption that her case appeared hopeless, has been treated with inhalation of this gas, with results described as marvelous. After a month's treatment the appetite was regained, the sleep calm and refreshing, and there was a very good prospect of recovery. The ozone was prepared by passing a stream of oxygen through the current of an induction coil, and was administered with atmospheric air in the proportion of one in five. The experimenter has reached the conclusion that the ozone treatment is specially applicable to all germ diseases.

VERY few people have any idea of the vast areas of Government land held by alien land-holders in the Unisted States. The largest tract, 4,500,-000 acres is held by the Holland Company, of New Mexico. An English syndicate holds 3,000,000 acres in Texas. Sir Edward Reid and a syndicate in Florida, own 2,000,000 acres; 1,800,000 acres belong to an English syndicate in Mississippi, 1,750,000 to cago, 5; Philadelphia, 0.—New York, 6; Inthe Marquis of Tweeddale, 1,300,000 to the Phillips-Marshall Company, of London, and 1,600,000 acres to a German syndicate. These comprise the larger landholders. There are, however, a score or more of persons and syndicates owning less than 750,000 acres. The grant total foots up to 20,747,000 acres of Government land held by aliens in the United States.

THE molecular theory is classed by Dr. Roscoe, President of the British Association, among the most notable of modern scientific landmarks, and recent investigation has accompl shed, as regards the size of the atom, what was formerly regarded as impossible. Recent researches have extended Bell, of North Adams, Mich., were washed county. the methods of atomic measurement, ashore at Burt Lake, Mich., Monday. with the amazing conclusion that the distance between the centers of contigious molecules is less than a fivemillionth and greater than a billionth tim, and had to be driven away with clubs. of a centimeter; that is, assuming that the best microscopes magnify 6,000 to facturer, died at Anniston, Ala, Monday. 8,000 times, a microscope which would mr. WASHINGTON NOTES.

The will of the late General Sheridan was admitted to probate at Washington Monday. It leaves one-third of all his personal property to his wife, the same in lieu of dower. The rest is left to his wife, M. V. Sheridan, and Linden Kent in trust. As each of the children reaches the age of 21 years, the trustees are to give to such child its share of the estate. The personal estate consists of property valued at \$19,821, with an indebtedness of about \$1,250.

Large crowds thronged St. Matthew's Church, Washington, Friday, to view the catafalque in which rested the remains of General Sheridan, but none were permitted to look upon his face and the casket was only opened for the family. For a few moments in the morning the church was cleared and Veteran Association, to commemorate the memory of General G. K. Warren, was un-The salute at the grave Saturday consisted veiled on Little Round Top with appropriate of, first, seventeen guns from the light batteries, and, second, three salvos of musketry from the battalion, followed by "taps" from

Forest fires are raging along the line of the Canada and Atlantic Road between Montreal and Ottawa. Eighteen miles of track have been destroyed, and many cars, houses and mills have been burned.

Fires were started Thursday morning in the furnaces of the old crucible works of the Cleveland Steel Company, at Cleveland, Ohio, recently leased to the Prospect Rolling Mill Company, but before operations had been begun sparks ignited the frame walls of the mill, and it was totally destroyed at a loss of \$30,000; insurance, \$10,000.

FOREIGN ITEMS.

Professor Perrin, who was arrested in France for attempting to shoot Boulanger was released from custody Monday, having shown that he fired, in self-defense, at partisans of the General.

At the art exhibition at Munich, Bridge man, Knight, Pierce, and Whistler, Americar artists, were awarded second-class medals. The amount for which Mr. Parnell sues the London Times is £50,000. The commis sion bill was signed Monday by the Queen.

A number of Italian troops were massacred at Saganeti by Abyssinians under command of Debeb. The treachery of members of the Assaortin tribe caused the disaster. General Von Moltke has been placed on

the retired list of the German army. The High Court of Foresters sitting at Reading, England, has suspended American courts until they comply with the rules regarding the admission of colored persons.

Lth CONGRESS.

SENATE.-Mr. Stewart moved that the SENATE.—Mr. Stewart moved that the regular business (bills on the calendar) be laid aside and the Chinese Prohibition bill be taken up. Agreed to yeas, 40; navs, 3 (Senators Berry, Coke and Jones, of Arkansas), The bill was then passed without a division. The bill provides that from and after the date of the exchange of ratification of the the date of the exchange of ratification of the pend ng treaty between the United States of Amer.c. and His Imperial Majestv, the Emperor of China, signed on the 12th day of March, 1888, it shall be unlawful for any Chine e person, whether a subject of China or of any other power, to enter the United States except as in this bill provided. The Senate then proceeded to the consideration of the fisheries treaty in open executive session, and was addressed by Mr. Evarts in opposition. arts in opposition.

After the introduction of a few unimportant re-olutions the House began the con-sideration of bills reported from the Com-mittee on the District of Columbia. Mr. Buchanan, of New Jersey, offered a resolution directing the Committee on Printing to investigate the truth of the allegation of a New York paper that the public printer is buying felt for printing in England. Referred, Mr. Dulois, of Idaho, offered a resolution calling on the Attorney General for a list of red. Mr. Dulois, of Idaho, offered a resolution calling on the Attorney General for a list of pardons granted by the President to persons convicted of the charge of unlawful cohabitation in Utah and Idaho since March 4th, 1866. Referred. Mr. Davidson, of Florida, introduced a joint resolution appropriating \$200,000 to a.d in suppressing infectious diseases in the United States. Referred. The floor was then accorded to the Committee on the District of Columbia. The first bill called up, authorizing the Commissioners of the District of Columbia to condemn property on Rock Creek for park purposes, gave rise to a protracted discussion. Mr. Stockdale, of Mississippi, was the principal opponent of the measure, and he argued that the government had no right to condemn that the government had no right to condemn private property for public amusement. He incidentally alluded to the proposed zoological park and ridiculed the idea of the government going into the menagerie busines Mr. Atkinson, of Pennsylvania, suggested then as nothing inappropriate in th going into the menagerie business after thad sunk \$\frac{1}{2}\text{theorem}\$,400,000 in the show business at New Orleans. While serving as deputy to Constable John w. Hall, of Danville, Ill., Tuesday, Elisha

W. Hall, of Danville, Ill., Tuesday, Elisha ple in regard to habits of the animals con fined there; and remarked that the govern fined there; and remarked that the government was already in possession of two buffaloes. The educating powers of two buffaloes were sarcastically commented upon by Mr. Stockdale who referred to the pleasure which his constituents would have when they traveled from Mississippi to Washington for the purpose of seeing the two buffaloes. The bill was finally recommitted. On motion of Mr. Mattson, the Senate bill was passed increasing to \$50 a month the rate of pension for total deafness. Mr. Warner, of Missouri. creasing to \$50 a month the rate of pension for total deafness. Mr. Warner, of Missouri, asked unanimous consent for the immediate consideration of the dependent pension bill, but Mr. Walker, of Missouri, objected. The House then went into committee of the whole on the fortification appropriation bill. No time was consumed in general departs. No time was consumed in general debate and the committee immediately proceeded to the consideration of the bill by sections.

CARRIED ACROSS THE CCEAN.

Strange Story of Kidnapping Told by a Young Man of Racine, Wis. Solomon Richardson, of Raeine, Wis., has just received a letter from his 19-year-old son, Fred, postmarked at Plymouth, England, which relates a remarkable experience

Last summer Fred dissapeared from home to go to Portland, Oregon. Although he was not heard from after he reached his destination and lived there until several months go, when, while walking near the river in Portland, he was seized from behind and placed on board a vessel, which set sail for England that night. He was then subjected to the most brutal treatment and was nearly starved. In due time the vessel arrived at Plymouth, but he was not liberated, and it was only after waiting for a consider time that an opportunity offered itself for him to mail a letter containing the facts. The cause of his being kidnapped can not be magined. Mr. Richardson has placed the who will endeavor to have the boy released immed.ately.

The Murderer of C. Arthur Preller Dies on the Scaffold in St. Louis in Fearful Agony.

Mis Neck Broken by the Fatal Drop -His Innocence Proclaimed and American Law Denounced.

Hugh M. Brooks, alias Maxwell, the murderer of C. Arthur Preller, was hanged in the St. Louis jail Friday morning, together with Murderer Landgraf. The drop fell at exact- His Friends Turn Out En Masse and

At 5 o'clock Maxwell was dressed for his last day on earth. He wore a black Prince Albert coat and white tie, which set off his pale face. He was beginning to show a little nervousness. He glanced about with something of a glare in his eyes that reminded one of the wild, frightened look he had as he was received by a crowd of several hundred peo-

more, the procession passing between a double file of police. Maxwell was very pale, and kept his eyes on the ground as he walked, but his step was steady and firm,

and kept his eyes on the ground as he walked, but his step was steady and firm, and no tremor was perceptible in his arms. Landgraf walked with his wonted stolid indifference, and neither spoke a word. They had hardly ascended the scaffold before the black caps were over their heads shutting out their faces, and an instant later both shot down through the death trap.

Maxwell's body twitched and jerked for over twelve minutes, and from a cut on the face, caused by the rope in being drawn over the head, a stream of blood trickled down and dropped to the floor. His body was cut down at 9:16 and removed to the morgue, where it was photographed. Landgraf's body was also taken to the dead-house, where a picture was obtained. The necks of both men were broken.

Morgue officials state that Maxwell's body was the filthiest corpse handled in the morgue for many a day. His underclothing was vile and he evidently had not bathed in months. After the post-mortem the remains

months. After the post-mortem the remains of Maxwell were taken to an undertaking establishment and embalmed. The casket was quietly conveyed to Cavalry cemetery and placed in a vault for interment at a later day. Mrs. Brooks and daughter, mother and sister of the deceased, and John I. Martin, Maxwell's attorney, accompanied the remains to the cemetery. It was expected there would be a seene at the morgue after the execution, but the mother and sister

wisely remained away.

Friday Maxwell furnished a document which he called his dying statement. In it he reasserts his innocence of the willful killing of Charles Arthur Preller and then gives an epitome of the statement of the case as heretafora multished hereinning with the greater heretofore published, beginning with the acquaintance formed in Liverpool with Preller, detailing the death of Preller, his own terror and flight, the pursuit, capture, trial, conviction, closing with bitter denunciation of those who he asserts have been instrumental in dragging him out of the highways of justice into the bypaths of mob law and making his execution an infamy and a disgrace to

MAXWELL'S SHOCKING CRIME. History of the Case That Brought the

Young Englishman to the

Gallows.

The crime for which Huge M. Brooks, alias Maxwell, paid the extreme penalty of the law was the murder of his friend, Charles and Preller was formed in Liverpool, Eng-

Early in 1885 Maxwell had left his home in Hyde, near Manchester, against the wishes of his parents, his objective point being America. From Manchester he went to Liv-erpool. He had no funds to speak of, but reerpool. He had no funds to speak of, but relied upon a smattering of science, law, and general information and a large amount of assurance to win his way across the sea. At the Northwestern hotel in Liverpool he met Preller, and in a casual conversation each man learned that the other would sail in the Cunard steamer Cephalonia for America. Later

They came to St. Louis, and Sunday, April 6. Pred r was killed with chloroform by Maxwell. A few days later the body was found in a trunk, but Maxwell had fied. Officers traced him to Aukland, New Zealand, neers traced him to Aukland, New Zealand, where he was arrested. He was returned and locked up in St. Louis. The motive for the crime was shown in Maxwell having taken Preller's money, over \$800, and a lot of his wearing apparel and personal effects; but the clinching testimony was that of John F. McCullouch a detective who unger the

the clinching testimony was that of John F. McCullough, a detective who, under the name of Frank Dingfelder, had been imprisoned with Maxwell as a forger, and from him secured a confession of the crime.

Maxwell's defense was that the death of Preller was accidental. He said he had administered the chloroform to operate on Preller for stricture. He fled because he presumed he would not be permitted to testify in his own behalf, that being the law in England. He was found guilty of murder and sentenced to be hanged. A new in England. He was found guilty of murder and sentenced to be hanged. A new trial was sought on the ground that a juror had expressed himself in favor of conviction before the trial. The motion was denied. An appeal to the supreme court resulted in affirmation of the lower court's judgment, though the detective enjace was censured. and one of the judges (Sherwood) dissented.

Application was then made to Justice Miller of the United States supreme court for a there was nothing to show that Maxwell had not had a fair trial. Maxwell's attorneys then sought executive elemency, which was-

LANDGRAF'S CRIME.

Insanely Jealous, He Deliberately Killed the Girl He Professed to hove.

The crime for which Henry Landgraf suffered the death penalty was committed on the night of March 5, 1885. The victim was his sweetheart, Annie Tisch, a beautiful girl of less than 18 years old. Jealousy prompted the deed. On the day of the murder he took the girl out walking, having the revolver with which he killed her in his pocket. He suddenly turned and upbraided her for keeping company with other men. She merely laughed, when he shot her through merely laughed, when he shot her through the head. He was convicted and sentenced to be hanged April 29, 1887. An appeal was granted the same day. May 7, 1887, the Su-preme Court affirmed the decision and the date of execution was fixed for June 23. The governor granted a respite until July 13, and on the 12th day of July Judge Nore granted him another stay until August

Singular Accident Which Befell a

DROVE HIS HEAD INTO A MULE

Boy in a Pennsylvania Mine. Joseph Richards, 14 years old, was driving a mule in the Murray Shaft, near Wilkesbarre, Pa. A train of five loaded cars ran

A riot was caused at Lincoln, Neb., Saturifire Thursday at a loss of \$75,000; insured MAXWELL IS HUNG. that his head was driven entirely into the av by an attempt to take an excursion of for \$50,000. mule's abdomen. His shoulder was broken and he was otherwise injured. When the norrified miners discovered the boy's condition they endeavored to extricate him and found the united strength of two men necessary. The boy's head penetrated the stomach of the mule. The boy was taken home for dead, but revived somewhat, though his skull is fractured and he will probably die. The mule died almost immediately after the

BLAINE'S RECEPTION.

Cheer Themselves Hoarse.

About 8 o'clock Friday morning the Staring

met the City of New York outside the Narrows. The Starin turned about and both vessels slowly steamed up the bay, bow and bow. Cheer after cheer rose from the decks of the Starin, although it was yet impossible to distinguish Mr. Blame's form among the 2,000 that stood on the decks of the huge steamer. As the vessels neared each other Mr. Blaine's form was made out, standing in a group of friends on the upper deck for of the wild, frightened look he had as he was received by a crowd of several hundred people at the Union depot about surrise one morning three years ago. He looked then as if he were afraid the crowd might prove to be a mob, and the same glisten was in his eyes as he stared about after donning his burial suit Friday morning.

At 6:10, just as everything was ready for the final march to the scaffold, the sheriff gave in to an appeal of Maxwell's attorneys for a postponement of the execution for two hours, and announced that it would not take place until 8:30 a. m. All holders of tickets were notified to return by that time.

The condemned men were taken back to Landgraf's cell, where they spent the time in private with Father Tyhun, no one else except the guards being present.

At 8:20 a message was received from Mr. Blaine's form was made out, standing in a group of friends on the upper deck forward. As cheer after cheer arose, Mr. Blaine bowed repeatedly. He was nattly dressed in a dark cutaway coat, light trousers, and brown derby hat. The Chicago Blaine Club's little tug had been the first to greet the stamer as it came up the bay, and clung under its wing, while the Chicago men cheered. Cappa's band on the Starin played "Home Again," and "Home, Sweet Home," and the "Star Spangled Banner" while advancing up to quarantine. Then both vessels came to anchor, and as the Starin ran over under the side of the City of New York, Mr. Blaine's form was made out, standing in a group of friends on the upper deck forward. As cheer after cheer arose, Mr. Blaine bowed repeatedly. He was nattly dressed in a group of friends on the upper deck forward. As cheer after cheer after cheer after cheer after cheer home, and the was natile over the stamer, as it came up the bay, and the "Star Spangled Banner" while advancing up to quarantine. Then both vessels came to anchore the side of the City of New York, Mr. Blaine's form was all the agreed and form were plainly visible to every-need the city of the City of New York, Mr. Blaine

organizations of New Tork City and used to mity assembled to welcome the Republication statesman home. Grand as was the display of marching columns, and shouting thous ands, and banners glowing in the electricity as they passed the reviewing-stand of Thursday night, it was nothing to compart to the demonstration of bloop hosts. Fridar the immense throng who were near enough to catch their import, and the applause that began with a ripple at the center and swelled into a wave of enthusiasm as it was taken up by the great gathering, told that a master than dwas playing upon the charts of sympathy that put him, so to speak, in telephonicommunication with every Republican hear "It was the recognition by earnest men, says a Republican journal, "not seeking political preferement, but anyious only to difficilly preferement, but anyious only to describe the says of the seeking political preferement, but anyious only to describe the says of the seeking political preferement, but anyious only to describe the says of the seeking political preferement. litical preferment, but anxious only to do the best they could for the support of their families and to maintain the position that honest labor desires to occupy, of the fac that a statesman stood beio e them who had studied their wants and understood them.'

SHERIDAN'S FUNERAL.

The Brave Cavalry Leader Laid to His Final Rest.

A few minutes before 8 Friday morning Mrs. Sheridan, accompanied by General and Mrs. Rucker, her father and mother, Colonel Sheridan, and other members of the family, entered St. Matthew's Church, at Washingington, where the remains of the dead eral lay in state. At 6 o'clock a specia eral lay in state. At 6 o'clock a special requiem mass was celebrated by Father Kervick. At the conclusion of the service the church was cleared and Mrs. Sheridan remained alone with her dead. As she left the church the guard resumed their places and visitors were again admitted. A steady stream of people poured in and out of the church of later.

church all day.

In accordance with the wish of Mrs. Sheridan the simple effect of the casket covered only with the American flag was not broken only with the American hag was not broken by placing floral tributes upon it. Such flowers as were received were placed on the step inside the altar rail. A wreath of ivy leaves with palm branches arrived at the church this morning from some unknown source. It was thought to have been sent by the President. The church remained open as revel until & Calcul, Saturday morning nal until 8 o'clock Saturday morn

the usual parochial mass being celebrated at It was the wish of Mrs. Sheridan that the public should not look upon the great General dead. Some of those about the casket think that the family wish not only to keep his remains sacred to his own family, but that they prefer also that the public shall resembles him only as he was in life. The member him only as he was in life. The people of Washington, therefore, will remember him only as they saw him last in health save the few who witnessed the removal, and caught a climpse of the year. caught a glimpse of the wan face and emaci-ated hand as it fell limp and almost lifeless at his side when he was borne upon the stretcher to be taken to the Swatora for his

The following Chicago persons arrived Friday night to attend the funeral: General W. E. Strong, A. C. Ducat, J. McGregor Adams, H. W. Jackson, representing the Loyal Legion (who have forwarded a floral epaulette four feet high, to be placed by the remains of the General of the army), John B. Carson, A. S. Gage, Henry Wheeler, N. K. Fairbank and Marshall Field.

After early mass Saturday morning the church was closed for a time and when it was re-opened, those provided with tickets began to arrive. Those who had the invitabegan to arrive. Those who had the invita-tions came early. The ecremony was to be conducted with military precision. The bell began to toll, the troops were drawn up in line, and a few minutes afterward the family arrived. As soon as they had entered, the soldiers who were to form the escort marched into the empty space in front of the church and formed brilliant, glittering line. The cavalry much resembled the German cuirassiers, with the pickethaube which General Sheridan brought back with him and adopted for our army after his visit to Sedan. But there were two features in the center of that guard of escort which attracted attention. The plain artillery caisson upon which the remains of the great salidier were to rest, looked almost reery casson apon when the Tenans of the great soldier were to rest looked almox repulsive in its rough simplicity. It was covered with flags and some black draping, but so that the rough parts of the caisson did not appear. It was drawn by four horses in the usual army huness. Behind it stood "Guy," the beautiful horse which was the favorite of General sheridan. It was a well-bred animal, and was restive at the long wait. It was saddled and bridled, as if for its owner's mount, the gold-emoroidered coth bearing the insigna of his rank as General. Attached to the stirrups were the General's military boots, reversed, the spurs pointing to the front in accordance with an ancent military custom. This horse was bought for General Sheriden four years ago, when in Chicago, and was bought for General Sheriden four years ago, when in Chicago, and was brought from Kentucky. It has not been used much by its owner in Washington. All of the old war horses are dead. The riderless horse was led to the grave of its master by Sergeant Major Perrine, of the Sixth Cavalry. Sheridan died as he lived-

Gen. Sheridan died as he lived—a soldier. No funeral services were ever conducted with more perfect precision. They were like clockwork, and not a jar occurred to mar the beauty and in pre-siveness of the occasion. Cardinal Gibbon's address, which embraced a sketch of the dead chieftain drawn from personal relations with him, was pronounced remarkable in with him, was pronounced remarkable in very many respects. The fearless manner in which the cardinal indorsed not only the which the cardinal indorsed not only the means but the ends of the general in his ride through the Shenandoah created some surprise. He declared that the general was never unnecessarily harsh with his foe and that he always employed the mildest means to attain his victory. The services occupied over an hour and a half. A more distinguished body of men never assembled to pay tribute to the memory of any man. Besides the President, his cabmet, Gen. Sherman, the leading men in both houses of congress, and the justices of the Supreme court, there were a large number of well-known men from varions parts of the country. Considerable feeling was created in Grand Army of the Republic circles by the refusal of Cardinal Gibbons to celebrate mass if the members of a secret society were permitted to attend the services in the capacity of their order. tway and struck the boy with such force order.

HERE AND THERE

An excellent fruit crop is promised in Michigan.

Charleston, S. C., is talking about having a \$1,000,000 hotel, a steamship line to Balti-

more and a public park. England's swiftest steel cruiser, the Media, has just been launched. She will steam twenty knots, or over twenty-three land

miles. An Au Train (Mich.) man claims he has found over fifty dead deer in the woods since the snow went off, which had been killed by

wolves. In a divorce suit in Sacramento the husband acknowledged that he had contributed for the support of his family during the past seven years the sum of \$7.

The British army authorities are pushing experiments in military cycling. A regular bicycle club has been formed, with 120 men, of whom eleven are officers.

The territory west of the Missouri river on the North Pacific railroad, it is said, is gradually being ridden of the feature which causes it to be known as the 'hunters' paradise."

In trying to reach for a shawl that had dropped from her shoulders, Mrs. Ensign, of Dansville, N. Y., fell down a bluff near ninety feet high and was drowned in the water at The keeper of a Detroit confectionery shop

and restaurant is evidently determined to make his cailing sure, as the sign upon his window reads: "Restaurant, lunch and Rev. Father Tolten, of Quincy, Ill., is the

only colored Catholic priest in the United States. He was born in slavery. He speaks several languages and is highly regarded by the clergy. A poor old washerwoman in Brooklyn has hung out the following sign, which strikes

some passers-by as ludicrous and for others it has a touch of pathos: "Martha Holmes washes every day." An old horse at Beaver Falls, Pa., long noted for its slowness, suddenly became re-

markably lively, and now is almost as frisky as a colt. There are some who think the animal has gone insane. Calico print works at Providence, R. I., are running night and day, and with an extra force of 300 hands, to fill an order for 2,000,-

300 bandanas. The manufacture of all other goods has been stopped. A manager of a woman's exchange reports that during the past year she has given advice to 518 women. Some lawyers have not been more busy, and few, probably, were obliged to solve cases in equal variety.

Miss Annie McCormick because she can play two tunes on the piano and sing a third, all at once. It is said that "she can sit with her back to the instrument and play most beautifully." Carriages containing a wedding party, on their way to the preacher's house, at Ply-

Hawkinsville, Ga., is remarkably proud of

At Prendergrass, Ga., Johnny Appleby saw a catbird dart down to the ground for something, and at once began fluttering and struggling as if to free itself. This continued for erhaps a minute, when the struggle ceased and the bird settled down motionless. The little fellow's curiosity being aroused, he went to the scene and found the bird nearly dead and pinioned by a hage black spider. The insect had seized its winged foe by the tongue. and bitten the end of it off. The bird died.

About midnight the other night persons living near St. Peter's Catholic Church in Columbia, S. C., were attracted by a light in a portion of the church premises adjoining the graveyard and by the sound of digging. Upon the spot being approached the lights were extinguished and several persons fled, one of them being in such haste as to leave his coat. This led to the arrest of two negroes, who explained that they were digging for treasure which a wizard had told them was buried there.

Even the oldest fashioned garden does not contain all the varieties grown in Shakespeare's day. The flowers for May and June enumerated by Bacon were "pinks of all kinds, specially the blush pink; roses of all kinds, except the musk, which comes later; honeysuckles, strawberries, bogloss, columbine, the French marigold, flos Africanus, cherry tree in fruit, ribes, figs in fruit, rasps, vine flowers, lavender in flowers, the sweet satyrian with the white flower, herbs, musca ria, lilium, corrallium, the apple tree in blossom.

It was one of our Boston schools, and the question was arithmetical, something like this: "If 17 men can do a piece of work in one week, how many men would it require to do it in three weeks?" Up went a hand. "Well," said the teacher. "Five men and a boy 14 years old." "How do you make that out?" asked the teacher endeavoring to suppress a smile. "It would take one-third as many men. One-third of 17 is five and twothirds." "But where does the boy come in?" "A person is not a man until he is 21. Twothirds of 21 is 14. It would take, therefore, 5 men and a 14-year-old boy."

AN ALLEGORY.

In a huge oak tree in a forest grand, In the heart of a balmly Southern land,
A pair of mated lovers dwelt;
And they cooed and called, and they often sang
Till the corridors of the old woods rang;
Their blithesome spirits seemed to melt With all the happiness they felt.

'Tis often thus in human life,

ghosts—when people queried her, she fire and the light and the girls is?" simply answered: "No, I have not asked the wretched being, and when

But perhaps the air of the mountain village did not agree with Cara Clarke, for she grew pale. She was be was so weak he staggered, and they always sweet, but sometimes she had were obliged to help him down the a little wearied air. Dr. Leighton asked her if she did not work too hard. Hodgdon shaking with excitement and consternation, placed food wondered sometimes, with a secret disquiet, if she had not somewhere a sweetheart who did not write to her. But Cara kept her own counsel.

The fall and winter wore away without bringing any revelation to him of what troubled her. Jack and Wilhe, the boys, were jubilant over the prospect of a vegetable garden with peas, potatoes and squashes of their own raising. But their sister looked so ill that the young physician felt called on to expostulate "Cara," he said, "I want to speak

you will die.' "O, no, I shall not," she replied, incredulously. "Your countenance gives token of unmistakable exhaustion. You are do-

to you. You must have a change or

ing too much labor or you have some trouble. Cara, why do you not confide in me? Do you not believe I am "Oh, yes. It's nothing, only I do not sleep very well."

She made no reply, and seeing that his insistance distressed her, he ceased to urge her confidence at that time, though more certain than ever that she had a painful secret. He was satisfied that she had no organic disease; and her mind seemed to have no morbid tendency. But the coloriess cheek, the hollow temples, the air of languor, betrayed that something daily and hourly sapped the young girl's strength.

One morning, Willie, the younger boy, rapped at his office door. 'Something's the matter with sister,' he said. "We can't wake her up.

Won't you come over?" Dr. Leighton found Cara in a stupor and delir ous. with every symptom of brain fever. He lost no time in getting assistance. Mrs. Hodgdon, the village nurse, was at Cara's bedside when she

Dr. Leighton had just left the room and was in the next apartment. He did not go in immediately, though he

heard the girl talking.
"Am I so very sick?" she asked.
"No, dear. You was feverish and your mind wandered a little, and I was out of a place and told Dr. Leighten I could stay with you a day or two as well as not for my board. I hain't forgotten the jackets as Willie outgrew that you sent to my Bobbie; and I had feeling for a young girl with no mother's hand in the hour o' need.'

'Oh," moaned the young girl. "I'm

"Why, dearie?" "Oh, Mrs. Hodgdon, there is somebody in this house besides ourselves. Besides me and the boys, I mean. Somebody creeps about and I am always listening for that step. It is killing me! Oh, don't tell anyone! I did not mean to tell you, but I'm so Don't, don't say a word to Dr. weak. Leighton. I must bear it, because its all the home we have and the boys never had such a pretty, nice home before, and they are doing so well, and are so good. I was not afraid at

Cara was begging the old woman not to betray her confidence, when Dr. Leighton came into the room.

though nothing has ever harmed us.

"You shall tell me the whole story, Cara he said. "You shall not lose

But Cara broke out, crying, in her weakness giving way to her emotions, and for a time the tumult would have its way. She was brought to listen to and mighty fir and pine trees, or in

reason at last. "It was two months after we came here," she said, "that I first heard those creening, creening steps. I tried to think it was the trees, or the wind, after a quarrel about money. The or the cat, but I heard them when there estate was owned by my father. It is was no wind at all, and the cat was now mine. It long ago fell into ill-repute on account of the murder, but it things were moved from their places clear blue sky, when the moon now is a very pretty place and has been about the house, and lately I have missed food. That's since I would not alwith you again and make any changes low myself to believe that a spirit red light of the torches. The solemn you may find desirable," thus tacitly haunted the place. I have searched pine forest around them lightens un every spot and nook in this house. There is only the space above the scuttle in the roof, and there are no

"Oh, Dr. Leighton!" groaned Mrs. Hodgdon, "Then of course, it's

"Nonsense." Dr. Leighton contented himself with prescribing for the sick and over-wearied girl, and after a few days of care arranged a drive for her in his new buggy, with her brother Jack as atten-

"You are to take a nice long drive. and not be back under two hours," he said, smiling.

Cara was new and very pleasant to her. As the wheels rolled away from the door in the brightness of the spring day, her trouble fell away from her like a nightmare, and the color came back

they nodded, he caught up a rough stairs to the kitchen, where Mrs. ed it, without any pretence of eating from a plate, devouring it like a half famished animal. When he had filled the unaccustomed plenty sickened him, and he began to groan and roll about. In a short time, the sheriff, who had been sent for, arrived, and he was taken away. No one believed that the poor, underwitted, half-dying creature was a fit subject for punishment, but the county jail was a clean and comfortable refuge for him in his destitution. Here he remained until consigned to the almshouse. No reliable account of his career could be obtained from him, but it is probable that he had sought refuge at Thistle Cottage in its desertion, and existed miserably there a great while before discovered. He had prowled about at night searching for food, of which he found a scanty supply, stealing from corn bins, pigs and poultry, and robbing hen roosts, eating the flesh of the fowls raw. It was the occasional discovery of his miserable figure which had called into existence the story of the place being haunted by his ghost. But so reduced had he become he would probably have died in his lair

Dr. Leighton kindly saved Cara from already borne much, and that she had been willing still to suffer in secret for the sake of preserving a good home for her young brothers was a fact which became known and endeared her to many hearts. Her friends multiplied, and, when she accepted as a life companion, Dr. Leighton, the oldest friend of all, hearty kindness surrounded her, and warm wishers for her happiness danced merrily at the wedding. - Yankee Blade.

SKAKING ON SNOW IN NORWAY.

Delightful and Exhilarating Pastime Enjoyed by the Fair Norse

wooden skates are peculiar to Norway. They are about two yards long, ending in front in a curved point. The midfirst. I am not afraid now, only for dle is provided with a strong leather them. There may be some evil about, strap, closely fitting the foot, and the though nothing has ever harmed us. whole skate is just wide enough for guess I've worked to hard."

sparks that shower down like a rain of fire. In spite of the fact that the temperature is just above zero, I am sure all these young Norwegian girls, if they had the slightest acquaintance with American slang, would exclaim when coming home on one of these evenings: "It was just too lovely for anything; but as they do not use slang in Norway, they would simply say:

Driven by Electricity. Mr. Magnus Volk, the electrician of way, has applied electricity to propel changed. "I beg your pardon," said Most of them are estimable women is supported by hangers under the body of the cart and drives a counternaturedly; "and I am much obliged to a number of blocks on the inside of do with it?" its rim, and a second steel chain, passing round these blocks from the countershaft, turns the wheel and propels use that.' the cart. the Dunkers or Dunkards, in Indiana. they saw his day's work they were both years before. But want and misery with the giving of the "holy kiss." -

The Invisible Guest.

"I don't believe one of those boys knows what it is to have a pain or an have broken it on something."

"Now see here," said True, taking whose only practical legs were a pair, up a boat and squinting at it. of wooden crutches leaning against the window sill where he was lying.

It was a warm day, and a party of happy school-fellows were on their way to the river for a row. There was h mself he would have lain down on fun were they that none of them nothe floor and gone to sleep, but that liced the wstful gaze of poor little Perry Evans as he followed them with and were to cost twenty-five cents. his brown eyes only, while they went laughing down the lane.

Bes des being lame, Perry was lonev; for he had no brothers and sisters, and his mother had to go out to work. So he found the Summer days long and wearisome. Fortunately he had some alent for making little to s and trifles, which was an occupation, but often he was not well enough to work; and tolav he was mourning the loss of his only tool of importance, an old knife, which had been so often sharpened that it had at last snapped in two. Perhaps this was why his eves were so quick to detect something shining in the road-something that True Stevens

had pulled out of his pocket with his handkerchief, as he went laughing along in his careless fashion, and had left it lying there, to be crunched by the first cart-wheel that passed. Perry reached for his crutches, and hobbled out to where this shining ob-

ject lay; and his heart gave a bound of

knife with big and little blades. "What a beauty!" he said to himself witnessing so much misery. She never as he turned it over and over, and or saw Simon Leland. Her nerves had forthwith drew from his necket a piece forthwith drew from his pocket a piece of wood, at which he had been ineffectually hacking. The knife cut the pine wood as if it had been cheese, and in less than no time Perry had the hulk of a small schooner on the bench beside him.

The morning was gone before he knew it, and the bench was full of chips, while a fleet of little boats stood in trim array on the window-sill by the time Perry remembered that his dinner

must be eaten. He thought he was alone as he uncovered the plate of cold meat and bread which his mother had left for him, and so would any one else have hought had that person looked in the aeat and tidy place which was parlor, bedroom and kitchen all in one; but all the same, he was not alone. Unknown ittle cripple for host when he can

going to the seashore; and I want half a dozen boats like this. I can't make them myself; so, if you can, let's call

it an order; and you take half your pay in the use of the knife."
"That's fair," said the other boys. Ned Johnson Will Fairfax and True So Perry yielded; and True, who had Stevens; and so full of nonsense and a turn for business, drew up a contract on a piece of brown paper, in lead-pencil, and made every one sign it. the boats were to be done in a week.

The bargain, however did not end there. True went to the seashore and showed his boats to every one, telling all he knew about Perry. The boat trade became so brisk that the lame boy could hardly work fast enough, and he had been able to buy a very good knife for himself. When True came home from his Summer jaunt, and found Perry looking pale and thin, he did something else, in which Ned and Will joined. They rowed him out on the river once a day steadily, and had the satisfaction of seeing him get a

healthy color in his cheeks. Perry never told any one but his mother the whole history of that Summer morning; and now he cuts chessmen, and sells enough to buy books as well as knives, he often thinks how different his life would have been had he yielded to that subtle temptation of his invisible guest. - The Churchman.

It Is Here. Glad summer is here With its usual romances Its conventions and beer, Its socials and dances; The roses smell sweet And the groceries cheesy,
The ladies look neat
And the butter spreads easy
Oil City Blizzard.

Majilten, the Man Monke

The original of the character 'Jocko, the Brazilian ape," was Henry Leech, an Englishman, whose professional name was Otto Motti. His body was of the size of an ordinary man'sbut his legs were only a footlong, yet such was his agility that he could outrun, on all fours, a very fair runner. His skeleton is in Mme. Tussaud's exhibition in London. The Ravels afterward introduced the character in in their pantomimes, but it was left to Majilton to bring it to perfection. He had wonderful strength in his hands and could walk with his hands hanging under an ordinary floor joist, his whole weight depending upon the grip between his thumbs and their opposing fingers with perfect ease; and he occasionally astonished a braggart of the profession by walking on his hands on a slack rope, or on the hawser with which the circus was towed by a steamer. This singular faculty made him an expert climber and he would run up and down the interior of the circus and leap the rails of the tiers and run along them with an agility that no ape could excel. He fairly rolled with laughter when he told how he frightened the colored people on

the Mississippi. On one occasion, when he leaped among them, chattering and grimacing, many jumped in their fright through the windows of the circus into the river and were rescued with difficulty. "For God's sake, stop this," said Spalding afterward, "or we'll have dead negroes to pay for." In Struggling to the top of the hills on gan twittering on the maple tree, and December, 1854, while playing in Charleston, he created almost a panic in the theatre. One of the scrub women was stationed in the third tier with a stuffed baby, and Majilton, in his Jocko act, snatched it from her and, jumping to the side of the proscenium boxes, beat its head against the wood and then threw it on the stage and jumped on it, the woman yelling all the while and the audience in a terrible uproar of terror and indignation.

> -Exchange. ARTISTS' FEMALE MODELS.

Women Said to Dislike to Pose for Their Own Sex.

What a vast expanse of canvas is covered with paint every year. M. Bouguereau tells me that reckoning he oar he was carrying from one from the number of artists represented at the Salon he estimates that there are fully 8,000 prefessional picture painters in Paris to-day. Think of it! Eight thousand men and women trying to earn their living with their brushes! If they produce an average of six pictures each in a year, which is a low estimate, we have 48,000 pictures annually turned out in Paris alone. Of this army of painters more than one-third are women, among whom is scarcely one artist of import-Be off with you, and let my fish ance. The "Women's Union of Painters and Sculptors' is a flourishing society, now seven years old, and boasting of more than two hundred members. But on the entire roll there is hardly a name that would be recognized outside of Paris; or indeed outside of a limited part of Paris. clever, conscious artists. Indeed, their work averages

their work is slighted. I heard, by the way, a curious fact about them. One great difficulty under which they labor pertains to securing models. It is hard for them impossible for them to get models in the nude. Why this is I can not "I made some boats. I'll give you imagine. And yet it is so. The young one for the putty, for I believe I can woman who thinks nothing of posing naked for a male artist, or for a room full of young men at once, positively refuses to undrape herself for a lad, painter. Male models are most obligng, though only a few of them are willing to pose in the nude for women. The result is that many lady artists who wish to paint nude subjects have to content themselves with copying from other pictures and photographs.

-Paris Letter. The Higher Education.

"What did your daughter graduate in?" asked a friend of another. "White silk, with a satin corsage and elbow sleeves," was the prompt ans-"I mean what branches," the startled guest. "Oh, her—her—why, the usual studies, I suppose," answered the perplexed mother.—

The Ppsilantian.

THURSDAY, AUG. 16, 1888.

The united labor party, which nominated Streeter and Cunningham on the presidential ticket at Cincinnati, held their state convention at Detroit, yesterday, strongly rejected all overtures to fuse with the democrats, and nominated an independent

For Governor—Wildman Mills of Sanilac.
Lieut. Governor—Paul Marrin of Midland.
Sec'y of State—Geo. McAllister of Allegan.
Auditor Gen.—Abel N. Howe of Jackson.
Att'y Gen.—John O. Zabel of Monroe.
State Supt.—Mrs. S. E. V. Emory of Lansing.
Board of Education—John Rairden of Detroit.
Land Office—Melville W. Scott of Newaygo.
Electors at Large—Ben Colvin of Saginaw and
Valentine A. Sapn of Marine City; 2d district,
Chas. Southerland of Adrian.

The democrats had two set-backs, yesterday. In addition to their failure to capture the united labor convention in Detroit, they miserably failed in a carefully arranged scheme to capture the American national convention at Washington and secure its endorsement of Harrison, in hope of prejudicing the Irish vote

Texas Mills is coming to Detroit, and may make a speech to show the Michigan farmers why the tariff on wool should be abolished, as he proposes in his famous bill. Geo. William Curtis says in Harper's Weekly that it is to help the manufacturers drive out foreign competition.

The Kalamazoo Daily Telegraph has been sold to Edward N. Dingley, son of Congressman Dingley of Maine, for \$3000. The new publisher is a graduate of Yale. and an ardent republican.

He That Maketh a Lie.

The condition of the republican party is illustrated by the fact that at the convention it declared absolutely that the existing protective system must be maintained unchanged, that whisky and tobacco should be free from taxation rather than that the tariff on a single protected article should be touched, and that five weeks after the convention that declaration so plainly threatens defeat that the Senate proposes to try to save the election by abandoning the platform.

> The Land by the Peaceful Sea. ON BOARD STEAMER "SANTA ROSA," Aug. 4, 1888

After spending a good part of the summer in Southern California at the beautiful city of Pasadena, (the crown of the valley,) I gather my little effects into my grips, ready to say good bye to these scenes.

I look at the two beautiful houses just completed, which are much admired, and pronounced by many the most beautiful in California for the money they cost; I go out into my peach orchard to eat just a few more peaches, a place where I have had many a feast during the last six weeks; I look at the grounds in front of the houses now being laid out in a lawn where the pepper, the fir and palm trees mingled with rose and many other flowering bushes are to be. I think of the great amount of fruit I have enjoyed during my stay, of the pleasant church relations, and the acquaintances formed; I think of the almost everlasting sunshine, and of the cool nights, such as I never enjoyed before at this season; I gather all the memories and sights of the past into a bundle, and with hat on my head and grips in my hand, I say good bye, I am now going to the "girl I left behind me.'

Arrived at San Pedro at 11 a. m., ready to be transfered in smaller vessels out to sea three miles, where our vessel was lying at anchor in waiting, having arrived from San Diego on the way to San Francisco. This is a beautiful vessel 340 feet | the Farming Regions of the West, Southlong and 3000 tons capacity, built in 1883 by John Roach & Son of New York and Chester, Pa., and cost about a half million | tickets, rates, time of train, etc., and for deof dollars. We left with more than 400 passengers on board, and the only show or promise I had for a room was a bed on the floor, and thirty-six hours' ride ahead of me, but as luck would have it, I secured a berth. It is said "misery likes company." Well, I had plenty of company. If any of our folks at home have an

idea that the boom has gone, and wiped out pretty much all of value on this coast, they are greatly mistaken. To illustrate, we arrived this morning, Aug. 5, at 5 a. m. at Port Harford, when was loaded on our vessel, train load after train load of barley, wheat, potatoes, beans and butter, and the Captain said they had enough to last four vessels with just such loads till the first of January next. Two weeks ago yesterday and to-day I spent with Mr. D. A. Scott at Ontario, and formerly of Ypsilanti. He owns a farm of 1100 acres near Beaumont, situated 3000 feet above the sea. He had 1200 acres of barley, cut two hundred tons when green for hay, and has 1400 sacks of 110 pounds each of very fine grain. Last year he sold for \$1.15 per sack. So much for the soil, and there is worlds of it. As to buildings, in the city of Pasadena, located only eight miles from Los Angeles there are now buildings in process of construction to cost \$600,000, and that does not take in any to cost less than \$3000. Several other large blocks are talked of as certain to be built this season.

At Los Angeles there are \$12,000,000 worth of buildings in process of erection, and such immense blocks would do honor even to New York or Chicago. This is a wonderful city, has 80,000 population, and has increased ten times in seven years. Los Angeles county, seven years ago, had an assessed valuation of \$17,000,000, to-day has \$107,000,000.

As to churches, they are simply marvelous. I will mention one, the M. E. Church Mr. C. E. COOPER As to churches, they are simply marvelof Pasadena. One year and nine months ago it had 141 members and to-day, 740. They built a fine church, and when my wife and I were there last January, it was Stephenson Gallery not completed. Long before it was done they found it was too small, and the first of April last, they commenced to build a Tabernacle at a cost of \$10,000, which will seat two thousand people. The growth of the Presbyterian church is even more marvelous in many ways. But I must close this already too long letter. Shall stop a short time in San Francisco, and reach home at an early day

Neighborhood.

Joseph Breining's oats yielded 61 bush

els to the acre, his wheat 28. Wm. Ward's wheat 21, G. Russel's 22.

Death has again entered the home of

Deacon Lamb and removed from the embrace of loved ones, their son Webster. He was a young man of promise, kind and affectionate to his aged parents, and sister

Willis Potter's family had the pleasure of eating ripe peaches picked by them on he 9th. Who can beat it? Willis Potter, Mr. Bryan, Mrs. Slocum, Mrs. Hunt, Mr. and Mrs. D. W. Potter visited S. P. Ballard, Sunday.

To Mr. and Mrs. Daniel O'Brien a laughter is born.

August Tompkins is on the sick list.

Wm. T. Russell and wife visited at Wm.

Day's, last week.

Henry Burns shipped from Saline on Monday moraing, in charge of Seneca Litchard, three hundred rams for the

Γexas trade.

A. A. Wood attended the meeting of he ex. board of the M. S. B. Association held at Lansing last Thursday. This meeting was called for the purpose of attending to business connected with the publication of the 2d volume of the Michigan Register. The job was let to the Kalamazoo firm who published the first volume.

Farmers are busy threshing out their grain, and are agreeably surprised to find yielding well, especially oats and barley Charles Klager of this town while driv-ing from Ann Arbor Saturday evening was run into by a young German who was not a prohibitionist, and Klager's horse was killed, falling down dead without moving from the spot, his breast being pierced by the thill of the other man's

STONY CREEK.

Mr. Lowery and wife are spending a few

weeks visiting friends in Canada.

Mr. Davis spent several days at the campmeeting near Belleville.

Mr. Campbell occupied the pulpit at the Presbyterian church last Sabbath morning.

Rev. R. Gage, a former pastor at this place, occupied the pulpit in the M. E. church Sabbath morning.

Rev. M. McMahon and wife, Mrs. Colby and Mrs. Wortley, spent Friday and Saturday at campmeeting. rday at campmeeting.

Mrs. Culver has a niece visiting her. The Misses Minzey are entertaining Mr. Babbitt's little daughter from Ypsilanti is spending a few weeks at T. L.

Mr. Will Russell and family of Elliott, Cal., visited his aunt, Mrs. C. Pearson, last

Mrs. E. Harvey spent last week with her son, Z. Buck, at Ypsilanti.

The young peoples' meeting Sabbath afternoon was led by Miss Campbell from

ear Ann Arbor. Mr. W. Barr is putting an addition on

his tenant house.

Mr. W. Lowden is adding very much to the looks of his house by building on to he upright.

Local Excursions for August.

Base Ball Games at Detroit August 23rd, Detroit vs. Chicago; August 27th, Detroit vs. Indianapolis. One fare for ound trip with 50 cents added for admis-

Grand International Regatta at Mackiaw Island, Aug. 14, 15, 16. Tickets will be sold Aug. 12 to 15, good to return until August 20 inclusive, at one fare for the

Centennial Exposition at Cincinnati, O. Pickets will be sold on Thursday of each week until October 27th, good going on date of sale and returning within five days, at one and one-third fare for the round

Colored Knights Templars at Kalamazoo fare for round trip.

Five Harvest Excursions.

The Burlington Route, C., B. & Q. R. R., will sell on Tuesdays, August 21st, Sept. 11th and 25th, and Oct. 9th and 23d, Harvest Excursion Tickets at Half Rates to west and Northwest. Limit thirty days. For circular giving details concerning scriptive land folder, call on your Ticket Agent, or address P. S. Eustis, Gen'l Pass. and Ticket Agent C., B. & Q. R. R., Chicago.

Art Exhibition in September. The new building of the Detroit Muse um of Art will be opened to the public on the first of September, with a loan exhi-bition of art works of superior merit, consisting of the famous Seney collection from New York city and other paintings of the highest grade. The gallery will be open from 9 a. m. to 9 p. m., daily, until November 15. The price of admittance will be a fifty cent silver piece on Mondays and a twenty-five cent piece on all other days. A coin will be accepted the same as in the old Art Loan, in place of the orthodox ticket, in order to save the making of change and avoid delay at the door. Excursions will be run over all roads centering at Detroit at greatly reduced rates, the tickets to include a coupon of admission to the Art Gallery. Those who wish to go to Detroit on these excursions should indicate it at once to

the ticket agent at the depot.

because you feel blue and are troubled with tired and all-gone feeling. Do as I did, use a bottle of Sulphur Bitters, it will make you feel like a new person; it did me. JENNIE HOLMES, 354 Tremont street

During the season just closed 107,000 pounds of wool were shipped from Cold-

Mrs. Zoa Babcock, a well-known lady of Pentwater, was drowned while bathing in Silver Lake a few days ago.

Harrison's election would fill us with hope for he future * * If Cleveland and Thurman re elected the impurities must be chipped out. If farrison and Morton, then there is no danger.— ypsilanti Sentinel.

flow "Uncle Tom" Was Written.

Hartford furnished none of the inspiration for "Uncle Tom's Cabin." Mrs. towe got that when she was living with her father on the banks of the Ohio, but the inspiration did not assert itself until years after, when she was living in Maine with her husband. Mrs. Stowe has said that the story of Tom's whipping and death was the first suggestion of the tale that she had, and that flashed itself upon her mind as she was sitting in church one Sunday. She went home, took her pen, and wrote this chapter. She read it to her children and some friends, and they shed the first of the many million tears that the reading of that chapter had caused to flow. So "Uncle Tom's Cabin" was written backward, so to speak, for Mrs. Stowe built the story on that chap-ter, which is very near the end of the book. It was first published as a serial in The National Era, in Washington, and ran that rather obscure abolition publication up to a great circulation. It has since been translated into more than seventy different languages, and has a teady sale even to this time.

Either through ignorance or misfortune Mrs. Stowe profited far less than she should have done by the enormous sale of this book. She has received more for the copyright of some of her other books than she ever got for "Uncle Tom," and she has never received a cent of royalty for the dramatizations, some of which have been very profitable. She would have been poor had her income been limited to that received from the sale of "Uncle Tom." Her other books have sold well, and she is reputed to have accumulated something like \$100,000 from her works. A shrewd book publisher of Hartford told the writer that if Mrs. Stowe's rights in "Uncle Tom" had been properly protected she would have realized at least half a million dollars from that work.—New York Sun.

A Town in the Tyrol.

The people are pious; they are very fond of outward shows and ceremonies, and the men religiously observe the feast days, of which there are about two a On these days the women work harder than usual, while the men occupy themselves with playing cards and drinking wine. Very large quantities of wine are consumed by the peasants. Dr. Pircher is my authority for saying that many peasants who never drink a drop of water, and drink far too much wine, live to a good old age. They eat heartily and heavily; five meals a day are required to appease their appetites; at each meal moked meat, maize and black bread are eaten. The bread is baked four times a year, so it is generally stale and satisfy-ing. In speech the people are Germans, and they show no trace of the Italian blood and characteristics which are conspicuous in other parts of South Tyrol. It is probable, however, that the stock is very mixed, as the people of many nations have successively occupied this part of Europe.—London Correspondence.

Little drink should be allowed at meals to weaken the digestive fluids. These are the saliva, gastric juice and bile. Bile is not found in a healthy stomach; if it is ejected in vomiting, it shows that the action of the stomach is inverted. Knowledge of this would save many from swallowing emetics and cathartics to rid the stomach of bile.

Copious draughts of water should be taken between meals to furnish the stomach material necessary for the digestive fluids. Water drinking an hour before meals should constitute a habit from infancy to old age. Its quantity must be regulated by the condition of each person. Lean people usually drink very little and are large eaters, while fat persons are apt to eat little and drink much. If the order be changed, it will, in most cases, make the lean grow fat, August 20 and 21. One and one-third and the fat people will have the comfort of seeing their own shadows grow less. Mrs. E. G. Cook, M. D., in Demorest's.

There is but one way to give: to share as children of the same Father that portion of the riches of the world and trust it to one care. Nothing else is true giving; it is merely tossing a bone to a dog.
